SCOTT-OBREGON COMPACT SATISFIED WASHINGTON

**President Wilson Says Text Will Be Given Out
When Carranza Accepts—Basis of Co-operation
in Clearing Out Bandit Forces from Mexico
Is Provided.**

By the Associated Press.

Washington, May 4.—President Wilson announced tonight that the tentative agreement between General Scott and General Obregon covering the future operations of the American and Mexican military forces in Mexico, "provides a basis of co-operation which promises to prevent misunderstandings and strengthen the cordial relations of the two republics."

Although there was no formal announcement of the action, notification that the Scott-Obregon agreement is acceptable to the American government was telegraphed to General Scott at El Paso late today by Secretary Baker.

General Scott is authorized to exchange formal acceptances with General Obregon as soon as the latter has obtained the approval of General Carranza.

President Wilson issued this statement: "I have examined with the secretary of war the report made by General Scott of the conference between him and General Obregon, minister of war of the Republic of Mexico."

"The report includes a tentative agreement covering the future operations of both the American and Mexican military forces and cordial relations between the two governments in their common purpose."

"As this agreement is being submitted to the de facto government of Mexico, it would not be proper for me to permit its publication until that government has had an opportunity to examine and consider its provisions. The full text of the proposed agreement will be given out immediately upon its acceptance by both governments."

In general I may say that it provides a basis of co-operation which promises to prevent misunderstandings and strengthens the cordial relations of the two republics."

Secretary Baker carried to the white house today General Scott's report of his meetings with General Obregon at which the agreement was worked out. Later he also informed Secretary Lansing of the plan. Instructions to General Scott authorizing him to hold a final conference with General Obregon and close the matter up were then prepared.

Use of the Mexican railways in keeping the American forces supplied is also provided, and in return the expeditionary forces are pledged to exercise every possible precaution to avoid clashes with the townspeople in the regions in which they continue to stay.

It is understood that the expedition will hold the present lines for the time being and not proceed to the south in any event. General Pershing's reports have indicated that the great majority of his command was inactive pending the outcome of the El Paso conference.

No action toward hastening exportation of arms and ammunition now at the border awaiting permits to cross into Mexico was taken today at the state or treasury departments.

Pending the decision by the Carranza forces of their power to clear the border region of brigands, it is said that no movement toward withdrawing any troops now on the border will be made. With the expedition well established in Mexico as a buffer against bandit raids on border towns and ranches, it is believed that there will be no repetition of border raids.

Expect Final Meeting Today.
El Paso, May 4.—The final meeting of Generals Scott and Obregon at which the details of the agreement for the co-operative pursuit of Villahonda were discussed, was held here today.

Plan of Two Railroads To Divide South Disclosed

By the Associated Press.

Washington, May 4.—Plans for dividing the south-east from the Mississippi and south of the Ohio, between the Louisville and Nashville railroad and the Southern railroad to the exclusion of other roads, as discussed by President Milton H. Smith of the Louisville and Nashville, and the late President Samuel Spencer of the Southern, in Mr. Smith's private car at Kennesaw, Ga., October 28, 1896, were placed in evidence here today before the interstate commerce commission.

President Smith, called to the stand today when the commission resumed its investigation of the Louisville and Nashville testified that the conference was held and identified as reasonably accurate the stenographer's transcript of what was said.

He failed, however, to identify correspondence purporting to have passed later between himself and the Southern president. The witness characterized as "ret" references to himself and Mr. Spencer contained in the

letters at Pizarro and Cortez, old world conquerors of the newly found continents of America who met to divide their territory.

"A lawyer up in Louisville first sprung that stuff," Mr. Smith said. "I did not know anything about it."

With a smile wreathing his face Mr. Smith told Chairman Meyer that the interstate commerce commission was a political body, that it dare not favor the railroads, for if it then would be abolished as was the commerce court, and that moreover the commission was aided by a powerful lobby in asking for more and more power.

SOUTH AMERICANS NO LONGER DISTRUST U. S. SAYS M'ADOO

ON RETURNING FROM BUENOS AIRES SECRETARY OF TREASURY DECLARES QUICK DEVELOPMENT OF MERCHANT MARINE NEEDED.

By the Associated Press.

Berlin, May 4.—By Wireless to the Associated Press to Tuckerton.—The reply to the American note on submarine warfare is believed to have been handed to Ambassador Gerard this afternoon. Considerable perturbation is expected over the effect which concessions may have on public opinion here.

Dr. von Bethmann-Hollweg, the imperial chancellor, undoubtedly will be a great mass of the people with him in a desire to avoid a breach in diplomatic relations with the United States so far as can be done without sacrificing the principle enunciated in the German manifesto of February 5.

The chancellor, with Admiral von Holtzendorff, head of the naval general staff; Dr. Karl Helfferich, the secretary of the treasury, and other participants in the council at headquarters, returned to Berlin early this morning.

The German memorandum of February 5, referred to, was addressed to neutral nations and declared that February 29 Germany would consider all armed merchantmen belonging to countries at war with Germany as warships.

It charged that before the outbreak of the war the British government had given British shipping companies the opportunity to arm merchantmen with guns for protection against dangers "threatening under certain circumstances from auxiliary characters of other powers." The British admiralty, it was added, published January 1, 1914, a list showing that twenty-nine steamers of various English lines carried stern guns.

Germany established soon after the outbreak of the war, the memorandum said, that enough liners were armed—the steamer La Corrientia having been captured carrying two four-pound seven-inch stern guns and a German submarine having been fired upon in the channel by an English yacht.

INTER-CONTINENTAL RAILWAY Startling Statement Made That All Way Trip by Rail Will Be Possible Between New York and Argentina "in the Not Remote Future"—Line Almost Three-fourths Done.

By the Associated Press.
Washington, May 4.—Secretary McAdoo, back from the Buenos Aires meeting of the International High Commission, declared in a statement tonight that leading South American statesmen agreed with him that quick development of a merchant marine under the American flag and completion of a Pan-American railway are the most important factors to be considered in plans for closer unity among American nations. The secretary and other members of the United States section of the commission reached Hampton Roads on the cruiser Tennessee early today and immediately came to the capital.

Mr. McAdoo as head of the section reviewed the work of the meeting at length and announced that in all the countries he visited he found a most friendly feeling toward the United States.

AMBASSADOR GERARD CALLS FOR REPLY

By the Associated Press.
Berlin, May 4, 5:30 p. m.—By Wireless to Sayville.—James W. Gerard, the American ambassador to Germany, has just called on Herr von Jagow, German foreign minister, to receive from him Germany's reply to the American note concerning submarine warfare.

Berlin, May 4.—By Wireless to the Associated Press to Tuckerton.—The reply to the American note on submarine warfare is believed to have been handed to Ambassador Gerard this afternoon. Considerable perturbation is expected over the effect which concessions may have on public opinion here.

Germany's Reply Awaited By Washington Officials With Expectant Tension

By the Associated Press.
Washington, May 4.—Germany's reply to the demands of the United States for immediate abandonment of present methods of submarine warfare, delivered to Ambassador Gerard today, was awaited by officials of the Washington government with expectant tension. They were without any definite idea of what the communication contained. A brief message from Ambassador Gerard as well as press reports, however, had created the impression that the imperial government would propose conditions which the United States could not accept.

It was reiterated that President Wilson stood unalterably by the position declared in the note to Germany: "Abandonment of present submarine methods must be declared and effected immediately or the United States must sever diplomatic relations. This was designed to permit of no argument and high officials repeatedly have asserted that anything short of a literal compliance would be followed by a diplomatic rupture."

The official copy of the note hardly will reach Washington before tomorrow night, but the document was given to the press in Berlin late today and the unofficial text was expected to reach the United States early tomorrow morning.

Mr. Gerard's message was sent before he had examined the note itself. Its meaning was not entirely clear because of errors in transmission of the diplomatic cipher.

Secretary Lansing declined to comment on the message or make it public. Mr. Gerard, not having seen the note itself, might have made inaccurate deductions. Furthermore, the ambassador had indicated that his message

must be regarded as being highly confidential. Secretary Lansing sent the dispatch to the white house for the information of President Wilson. At the same time an effort was made to have the errors of transmission corrected. It appears tonight, however, that the contents of the note would be known before the corrections could be made.

GERMAN PUBLIC BEHIND CHANCELLOR.
Officials gave special consideration to press dispatches saying the German chancellor would have the German public behind him in efforts to avoid a breach of relations with the United States, "so far as can be done without sacrificing the principles enunciated in the German manifesto of February 5."

This manifesto announced to the world Germany's intention of treating as warships armed merchantmen of hostile nations.

The position of the United States is that merchant ships have a right to arm themselves for defensive purposes and that as long as that armament is used for defensive purposes the vessels should derive the same treatment as other peaceful trading ships. This position was re-stated and elaborated upon in a memorandum on the subject prepared by Secretary Lansing and only a few days after the dispatch of the note to Germany, sent to the governments of Europe, neutral as well as belligerent.

Some officials tonight found a hopeful indication in a press dispatch which stated that considerable perturbation was apparent in Berlin over the effect which "concessions" to be made might have on German public opinion.

A special corps of operators was kept on duty at the state department to receive the official text, though at midnight word had not come from Ambassador Gerard that he was ready to start the document.

Washington, May 4.—Germany's manifesto of February 5, to the principles of which press dispatches from Berlin indicate the imperial government adheres in its reply to the American note, is assumed by officials of the state department to be the memorandum of that date declaring that in future all armed merchant ships of belligerent nationality would be considered warships subject to attack without warning.

In spite of Secretary Lansing's flat refusal to discuss the contents of a dispatch received today from Ambassador Gerard it became known late today that in view of such information as had been received official and unofficial officials of the government fear that Germany has attached conditions to her reply that might make it impossible for the United States to continue diplomatic relations.

In a memorandum prepared at the direction of President Wilson and made public a few days after the dispatch of the last note to Germany, Secretary Lansing restated the American attitude toward American merchantmen, declared that they should be considered and treated as peaceful vessels if their armament was carried and used for defensive purposes only. War officials would not comment on the Berlin reply to the manifesto of February 5, they reiterated that the president was prepared to stand unalterably by the position taken in the last note. The note, which was designed to permit of no argument, gave notice that unless Germany immediately declared and effected an abandonment of present methods of submarine warfare against passenger and freight carrying vessels, the United States would not do otherwise than sever diplomatic relations.

Brazil Investigating Rio Branco Sinking

By the Associated Press.

Rio Janeiro, May 4.—The Brazilian government has notified the German legation that it has ordered an urgent inquiry into the sinking of the Brazilian steamship Rio Branco, in order to be able to act with certainty for the defense of its neutral rights.

Official telegrams announce the Rio Branco was torpedoed. The newspapers are greatly aroused and unanimously demand energetic intervention by the Brazilian government.

Yesterday the Journal of Commerce advocated co-operation with the United States to oppose submarine warfare

as it has been carried on. Its lead is followed today by the other newspapers, which are strong in their denunciation.

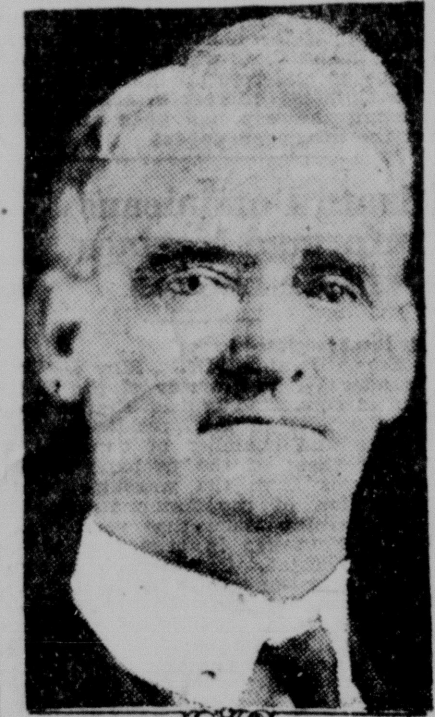

The Correio do Manha says: "Germany considers herself in a state of war with the entire world."

The Gazeta do Noticias says Emperor William's general staff has declared war on humanity. It adds:

"To combat infamous Prussianism is the duty of every nation."

Opatz says: "Brazil sees in this world war no place for neutrals. Whoever remains neutral will be vanquished. Germany deserves no longer from our government the consideration which has been shown it against the general sentiment of the country."

Shreveport Woman Killed by Auto

By the Associated Press.

Shreveport, La., May 4.—Mrs. Lucy Lawley, aged 52, a saleslady in a department store here, was run over and almost instantly killed at 6 o'clock this evening by Mrs. Camilla Otts, wife of Deputy Sheriff Otts of Caddo parish. The accident occurred on a crowded corner of Texas and Marshall streets in the heart of the city. Mrs. Otts, herself of advanced age, fainted when her automobile struck Mrs. Lawley and tonight is reported to be in a serious condition suffering from shock.

Bulgaria Dominated by Germans, Say American Doctors

By the Associated Press.

The Hague, May 4.—Dr. Charles Pancoast of Philadelphia and Dr. Morrowitz of New York, have reached The Hague after sixteen months during which they have engaged in work in the Bulgarian and Austrian armies. They say a spy craze is rampant in Bulgaria and that it is evident the Germans do not want Americans in Bulgaria.

How thoroughly Bulgaria is under German domination, they declared, is shown by the fact that the country virtually has been denuded of foodstuffs by the Germans. There is a general feeling of unrest, and Dr. Pancoast prophesies that uprisings or assassinations may be expected within a few months.

Dr. Pancoast adds that there is an unmistakable, although suppressed feeling of hostility against the Germans, of whom it is estimated there are more than 400,000 in Bulgaria. There are more Germans than Bulgarians in Sofia, he says. According to the physician, there is an open war-like feeling against Rumania and animosity against the Serbians. "Three-quarters of the Bulgarian population, he declares, is Russophile."

Dr. Pancoast speaks highly of the Hungarians, who, he says, treated the Americans well and showed great humanity toward prisoners, in contrast with the Bulgarians, who, he says, were often cruel. He says that he saw 800 British and French prisoners in rags marching the streets of Sofia with the people jeering them. They had been robbed of their clothing and shoes on the battlefield.

NEW YORK IRISH WILL WORK TO GET SULLIVAN FREE

By the Associated Press.

New York, May 4.—Leaders of the cause of Irish independence in this city united tonight in declaring that every effort will be made to bring about the release of James M. Sullivan, arrested in Dublin. They are convinced, they said, that he took no active part in the preparations for the recent riot and base their opinions on letters recently received from him. The state department, it was asserted, will be asked to intervene because of Sullivan's American citizenship.

Jeremiah O'Leary, an intimate friend of Sullivan, declared he went to Ireland last June with his wife and small son merely to live with his father-in-law, Stephen O'Mara, a former mayor of Limerick, and known as "the Irish bacon king."

Directors of the recently organized Sons of Irish Freedom denied a report that Sullivan was the representative in Ireland of that society.

ELIHU ROOT WILLING TO BE NOMINATED BY REPUBLICANS

New York, May 4.—Formal announcement that Elihu Root has sanctioned the campaign which is being conducted in his behalf for the republican presidential nomination was today made by former Congressman John W. Dwight, who is in charge of the Root headquarters in this city.

Election Officials in Oklahoma Are Arrested

By the Associated Press.

McAlester, Okla., May 4.—Harold Moles, registrar of Pittsburg county, and John L. Waggoner, precinct registrar in the first ward of this city, were arrested here today on warrants issued from the office of the United States commissioner charging conspiracy to deprive O. H. Smith, a negro, of the right to vote by refusing him a registration certificate under the new law passed by the recent special session of the state legislature. At preliminary hearings the men were bound over to the federal grand jury under bonds of \$1000 each.

Gov. Robert L. Williams, who was in McAlester tonight, on being informed of the arrest is declared to have instructed County Attorney Carl Monk to file information in the state court charging all persons with the exception of the United States commissioner connected with the case, with conspiring to intimidate election officials, an offense punishable with imprisonment and a heavy fine.

Smith, who filed the complaint, has been arrested, officers at the county jail said.

VISION OF ROAD ACROSS TWO CONTINENTS.

"The total distance between New York and Buenos Aires by rail is 10,500 miles, of which approximately 7,400 miles have been built and are in operation, leaving approximately 3,100 to be constructed. The principal gaps in the inter-continental railway are in the countries of Central America and in Colombia, and Peru in South America, and the estimated cost of construction is roughly \$150,000,000.

With these links completed it would require only a relatively small amount of additional construction to connect the main trunk line with Santiago, Chile, and Rio de Janeiro, Brazil, and then practically all the principal capitals of Central and South America will be connected with each other and with all the cities of the United States. All aboard for Buenos Aires! when shouted in the railroad stations of New York City will be a thrilling announcement. Some day and in the not remote future this announcement will be made."

Brazil Investigating Rio Branco Sinking

By the Associated Press.

Rio Janeiro, May 4.—The Brazilian government has notified the German legation that it has ordered an urgent inquiry into the sinking of the Brazilian steamship Rio Branco, in order to be able to act with certainty for the defense of its neutral rights.

Official telegrams announce the Rio Branco was torpedoed. The newspapers are greatly aroused and unanimously demand energetic intervention by the Brazilian government.

Yesterday the Journal of Commerce advocated co-operation with the United States to oppose submarine warfare

as it has been carried on. Its lead is followed today by the other newspapers, which are strong in their denunciation.

The Correio do Manha says: "Germany considers herself in a state of war with the entire world."

The Gazeta do Noticias says Emperor William's general staff has declared war on humanity. It adds: "To combat infamous Prussianism is the duty of every nation."

"Brazil sees in this world war no place for neutrals. Whoever remains neutral will be vanquished. Germany deserves no longer from our government the consideration which has been shown it against the general sentiment of the country."

DENISON CHOSEN FOR 1917 BY THE ALUMNAE

FORMER STUDENTS OF SACRED HEART ACADEMY HOLD BUSINESS SESSION.

Miss Margaret O'Connell of West Selected President for Next Year. Take Auto Ride.

Denison was chosen for the next annual meeting of the alumnae of the Sisters of St. Mary in Texas at a business session held yesterday morning. Cities represented at the convention here besides Waco were Fort Worth, Denison, Dallas, Wichita Falls and Sherman. Miss Margaret O'Connell of West was elected president of the organization for the ensuing term and other officers were chosen as follows: Mrs. J. Roach of Fort Worth, vice president; Mrs. Scully of Sherman, treasurer; Mrs. T. D. Cuff of West, corresponding secretary; and Miss Benit McDewee of Fort Worth, recording secretary.

Delegates and visitors to the convention were entertained last night in the dining hall of the Academy of Sacred Heart by the local alumnae. Miss Bella Beer was toastmistress and a toast to the Sisters of St. Mary was given by Miss Pearl Walker Yates and a toast to the alumnae by Miss Benit McDewee of Fort Worth. Mrs. M. Murphy of Denison gave a toast to the Sacred Heart alumnae and this was responded to by Miss Kate Lytle of this city. A short talk was made by Miss Kate Friend.

An automobile ride was given the visitors yesterday and they were allowed to see Waco's beauty spots. Routine matters took up the session yesterday morning and the automobile ride and a business session yesterday when the officers were chosen composed the afternoon program. Mrs. M. Murphy of Denison gave a toast to the Sacred Heart alumnae and this was responded to by Miss Kate Lytle of this city. A short talk was made by Miss Kate Friend.

This was the first time the state organization has ever met in Waco but a conference was held here several years ago when the initial steps toward organization of the association were held and resulted in a meeting last year in Fort Worth when the organization was formed.

Dentists Discuss the Benefits of X-Ray

Dr. W. S. Ferguson was essayist last night at the regular meeting of the Waco Dental society held in the office of Dr. S. M. Meyer in the Peerless building. His subject was "The Use and Necessity of the X-Ray in Dentistry," and was followed by a warm discussion on the question.

The society will attend the State association's convention which will be held in Dallas May 9-12.

Playing with the Debuts Bridge club as guests of Miss Fay Clinton were the Misses Ruth Hubby and Ruby McClain, with Miss Maudeine Hill of Weatherford as an onlooker. Miss Clinton gave a piece of her own needlework as her prize and it was won by Miss Katherine Reynolds. Miss Mary Farrell will be hostess next Wednesday.

DOMESTIC SCIENCE MEETS WITH MRS. GEORGE M'GHEE

An unusual pleasure was afforded the Domestic Science club in its meeting with Mrs. George McGhee. This was made from Mrs. Baldwin and Miss Wilson, from Tyler, delegates to the State Music Federation. Other guests were the Mesdames W. S. Witte, Erwin Clark and Hal Moody. Membership of the club was well represented.

EASTER TEA FOR THE HOME WITH MRS. EDWARD ROTAN

The postponed Easter tea for the Home has been arranged for Monday afternoon in the home of Mrs. Edward Rotan. No cards will be sent. A general invitation for a call and a coin is given. The installation of more comfortable beds for the old women has caused an account against the Home which it is hoped this tea will cancel.

Brazelton, Sidney Burrows, Ben Moulden, William Carroll and David Lee Davis. The Mesdames Chapin Seely, head, and W. W. Seely, consolation, won the game trophies.

Mrs. J. D. Willis was hostess. Mrs. William Talley will have the club for its next game.

FRIENDS BID AU REVOIR TO MRS. W. C. ROBINSON

After valued service as member of the Provident Heights Baptist church, Mrs. W. C. Robinson left on Thursday for a new home, El Paso. Upon the eve of her going Mrs. Rosa Smith invited to spend an hour with Mrs. Robinson in her home on North Eighteenth street a company who had worked with Mrs. Robinson and who regretted most her departure. A rose bower was formed in the living room where the pastor, the Reverend H. H. Street, voiced the sentiment of the church in bidding her adieu. Other than this the hour was social. More than twenty were permitted this au revoir.

MRS. CULLEN COOPER WITH MRS. O. H. CROSS

During her visit from Dallas, Mrs. Cullen Cooper was claimed for one afternoon by Mrs. O. H. Cross. To spend the afternoon with her Mrs. Cross invited a company of more than the dozen. The cup of tea at 5 o'clock was served by Mrs. Cross. The guests were Mrs. Cooper and James Sturges while the time. Mrs. Cross introduced as her guest within the home, Miss Mary Ella Wallace from Rockdale. Other guests were the Mesdames J. L. Burrows, Frank Mann of Vernon, Herman Hawk, B. L. Scott, H. P. Jordan, Ben Gray Kendall, Pearl Walker Yates, E. D. McGee of Houston, Lloyd Tule, A. E. Moore, B. L. Hutcheson, Perry, J. J. Abernathy, J. M. Milled, with the Mesdames Gertrude Bush, Margaret Bush and Minnie Kilgough.

MRS. STELLA WREN SCORES A SUCCESS

The appearance of Mrs. Stella Wren on the stage before the Philharmonic orchestra means an era in musical history for this city. Mrs. Wren was being tried in the balance and she was found not wanting. She received ovation from home people as she appeared. She received more than this as she disappeared. For Mrs. Wren had come and she had conquered. Her voice shows great possibilities. Mrs. Wren has surprised her audience. Ten minutes after the deafening applause was silenced she had signed for concert work with Devoe, who books nothing but real artists. The last day of the State Federation convention claims every moment of Mrs. Wren, but this ended, we will hear something of detail in her plan. She is the first singer from this city to leave for national tour.

Society Notes

Two former members sent greetings to the Shakers club reunion dinner. There were Mrs. J. C. Ryan from Fort Worth and Mrs. Sadie Cameron McDonald from New Orleans.

Dr. and Mrs. John L. Davis have closed their cottage on Austin avenue to take apartment at Hotel Raleigh.

On Thursday the R. G. Wright household returned from Sahger avenue to their former home on the East Side.

The Morning News insists yet another time, that while all items for the women's department are welcomed, these must positively be sent as soon as events has transpired. The News does not accept delayed items. Those submitted which fail to appear is because they are tardily sent.

Miss Maud Brown of West Washington has been invited for a return visit to Brenham. She is on a second Brenham program for fancy dance at the grand ball.

Mrs. C. D. Hulst of North Fifth street has composed another song, which friends pronounce her best. This is "Texas," and it goes without saying carries a patriotic ring.

Miss Gracie Ferguson is busy with a design for paper doll which she is getting ready for copyright and general sale.

Mrs. M. B. Davis of the East Side is invited to give her bird talk at Oak Grove tonight.

As retiring president of the Press club, Mrs. F. J. Lennox announces a meeting of the club with Mrs. George King, West Austin, on Tuesday afternoon.

Mrs. E. P. Sligh of Colcord avenue will, within the coming week, have as her guests her daughters, the Mesdames Ernest Raines of Dallas and W. P. Hubert of Oklahoma City.

Compliments are passing thick and fast for the brilliancy of the Shakers reunion dinner on Tuesday evening.

Mrs. Mary Evans of Terrace Row is detained in her visit to Dallas by the alarming illness of her daughter-in-law, Mrs. George Evans.

The beautiful basket of flowers sent to Mrs. Joseph Wren after her return with the Philharmonic orchestra was the expression of pride from the State Federation of Music clubs in their first vice president.

Mrs. Grace Wigley, chairman from the City Federation for the "Made-in-Waco" essay contest, is more than delighted with the interest manifested among the high school pupils.

The women are right with the city commission in their provision of the trash cans, also in their efforts to suppress the flying paper. But, Mr. Commissioners, suppose we do not become victims of the advertising man as we have done twice before. The final, artistic appearance of city utilities will get it for you. A sample and a booklet will be mailed to you upon receipt of ten cents and your orders will be filled direct from our laboratories if you prefer. Mention shade desired.

Very Effective Method for Banishing Hairs

(Modes of Today.)

At very little cost any woman can rid her face of hairy growth, if she will use the delicate treatment. This is made by mixing some water with a little powdered talc. This paste is spread upon the hairy surface for two or three minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No harm results from this treatment, but care should be used to buy real talc.

Sheriff Fleming Advises Boys of Cigarettes' Harm

Sheriff S. S. Fleming addressed the members of the Working Boys' club last night at their regular meeting in which he brought out the disastrous results of smoking cigarettes. He stated that at the present time there are 120 prisoners in the city jail, 90 per cent of which are cigarette smokers. He said that the cigarette smoke was often resulted in its user's social standing being lowered. His talk was well received by the boys.

School Board Turns Down All Bids

All bids on the proposed new brick ward school building near Boque and Twenty-fifth streets were rejected yesterday afternoon by the building committee of the school board at a meeting held in the office of Superintendent H. R. Cobb in the high school building, all bids being too high, in the opinion of the board.

It was decided that the architect and the building committee for the superintending will go over the plans carefully and try to modify them somewhat without impairing the efficiency of the building after which new bids will be invited. It is not thought that this will involve much delay, and the building will be ready for the fall term easily.

No prices were given out by the board, but the following were bidders for the contract: J. E. Johnson, Nat. Bushnell, Gross Construction company, H. J. Answorth, Harris & Hewitt, J. W. McInty, N. P. Lowrey, Smith & Fatzold and D. R. Martin.

The building called for under the plans is a two-story and basement structure of brick, and with six class rooms.

A Sure Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common, liquid arsen from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Local Deaths

Funeral of Dr. Turner.

The funeral services of Dr. R. B. Turner took place yesterday morning at 10 o'clock at the Central Christian church, conducted by Rev. F. N. Calvin, pastor of the church.

Mrs. Turner, whose health has been very poor for several years, was unable to attend. In speaking of Dr. Turner yesterday Rev. Mr. Calvin said that he had known Dr. Turner for many years, had in fact known him in Canton, Missouri, his old home, and that he was not only a leading physician and a leading citizen, but that he was a man of wide usefulness and philanthropy; in twenty-three years, said Dr. Calvin, Dr. Turner had personally educated and paid the expenses of school of a large number of young men, most of whom were educated for the ministry. Dr. Turner had kept three young men at school each year during the twenty-three years, and in addition had given free medical attention to hundreds at the big school at Canton.

It is the opinion of all who knew Dr. Turner intimately that his ill health at a time when his wife's health was poor preyed upon his mind until he was plunged into a fit of depression which culminated so tragically on Tuesday afternoon when he too took life.

Where people have been reached by the educational work undertaken by a protective organization there is an increasing appreciation of the value of birds, and it is fairly well demonstrated already that the migratory bird law is increasing the bird numbers.

GO AFTER

Mr. J. F. Walters of Houston, is too well known as an anti-prohibition leader for any question to arise as to his loyalty to that cause. He is of German ancestry and pro-German to the core, as far as relates to his sympathies with respect to the European war. This is his view touching the effort to swing the German-American vote of this state through the aid of New York influences:

"Regardless of whom men may support for the United States senate, I feel quite sure that all whether citizens of German extraction or other races, will concur that it is unfortunate that New York politicians, regardless of what racial extraction they may be, have been brought into the politics of Texas. And so far as their influence upon the so-called German-American vote is concerned, I am quite sure that any effort on the part of gentlemen in New York to pose as the deliverers of these voters to any candidate is being very emphatically resented. Any man, whether he be of German extraction, or any other race; whether he be animated by political aspirations, or whether he be in the pay of any propaganda, or whether he be carried away by zeal—but any man who seeks to arouse the racial prejudice of any class of Americans at any time is no friend of that race."

This puts it in terms as strong as were employed by The News when the Koebler letters were first published. It then expressed the opinion that the thinking Germans of Texas would resent the attempt to deliver them, boot and baggage, at the behest of any political striker from anywhere.

It is now in order for Colquitt to turn his batteries on Mr. Walters. What has become of your "courage and candor," governor?

Go after him!

THE CANDIDATE IS THE CAUSE.

The government and the loyal people of this nation have been remarkably tolerant, even under severe provocation, but forbearance ceases to be a virtue when abuse of hospitality is followed by abuse of our institutions and our administration to an irritating extent, as when it proposed to intimidate the administration by threats, to use the foreign contingent in America against Americans. The United States is a great melting pot in which it has been the purpose to fuse foreign elements into a homogeneous mass, not a camping ground for revolutionists and marplots to carry on operations against some other country with which we have friendly relations, either on this continent or overseas.—San Antonio Express.

The famous woodpecker war in Brazoria county had its origin in the machinations of disreputable politicians who sought to use the negro vote for their own aggrandizement. The fault was not with the negroes, but with the crafty politicians who misled them, and who were finally chased out of the country by the indignant whites.

When we go to the bottom of it, the efforts to solidify foreign elements and their descendants against American institutions and those who stand for them, may easily be traced to politicians whose only concern is to get office for themselves.

The hyphenated American will disappear when it shall be demonstrated that that route always lands the candidate in the ditch.

Another Zeppelin raid. A shower of one hundred bombs. Eighteen houses struck. Six men and three women killed. Nineteen men and eight women injured. And that is called war.

Dr. Karl Liebknecht, who speaks for as many Germans as any one man, was arrested in Berlin for making a peace speech at a May day picnic. If the kaiser needs a man of "courage and candor" to go after Liebknecht, we have him. Why mention his name?

Roosevelt's appearance in the several republican conventions which have been held is strikingly like that of Mr. Veneering, a Dickens character, in his first political sally. His secretary wired the gaping folks at home, "he's up." Later came the telegram, "he's down."

Mr. John Davis of Dallas wants to debate with the other candidates for United States senator the question whether any Texas river should be made navigable, he to take the negative. Out of date, John. Come on to the question whether the mails of Dallas should be distributed by horse car or a donkey.

By-the-By

That was an awful waste when 30,000 eggs were destroyed at Fort Worth because they were under suspicion. Think of the coming campaign in Texas, and how much it might have been abbreviated by the judicious use of those eggs.

That Aster four-year-old who spent 75.50 a day last year must have had a high old time hunting rabbit eggs.

The wheat acreage of Oklahoma is 78 per cent. Get out the waffling irons and have the masses ready.

Judge Swayne of Fort Worth will begin his campaign for congress next

Monday and he promises to show Mr. Callaway that Salt River, at least, is navigable.

The average woman would rather know how to remove freckles than to be able to move mountains.—George Bailey in Houston Post.

Wrong again; what the average woman wants to know is how to keep the average freckle from coming back after she has removed it.

ONE DOES, THE OTHER DEBATES.

The difference between a strong government and a weak one is illustrated by the Sinn Fein outbreak. Birrell, late chief secretary for Ireland, confesses that he is responsible for the proportions which the revolt attained. He was warned in time, but failed to act, and the result was a great loss of life and property. His theoretical benevolence brought disaster upon Ireland and peril to the British empire.

The Sinn Feins were but a handful of the Irish people. At no time did they receive general encouragement, and they were overpowered largely through the aid of Irish civilians and soldiers.

Germany is honeycombed with opposition to the government and to the monarchy. More than half of the people in all of its large cities are, avowedly, in favor of democratic institution and a republic. Yet no revolt of the Sinn Fein nature will be heard from in Germany—at least while the war is in progress. A republic is coming, and the people are now ready for it, but there are reasons in abundance why they will say nothing about it just now.

The difference between the German government and the British government is that one does things and the other debates them in parliament.

LET US HAVE THE REASONS.

Beginning today, Georgia operates under a new prohibition law. Like all previous statutes, it will no doubt be honored more in the breach than the observance.—Houston Post.

If the Post knows where a bottle of liquid paralysis can be secured in Rockwall or Van Zandt counties, a few booze fighters up there will be greatly obliged to it for the information.—Waco News.

All of which supports the Post's contention that Texas under the operation of local option has the best system of legal restraint that has yet been devised in this country for controlling the evils of the liquor traffic.

The overwhelming sentiment of a county or any subdivision of it wants the traffic entirely suppressed. It generally finds a way to enforce its will. That much can not be said for any state that has yet experimented with statewide prohibitory laws.—Houston Post.

The county of Harris did not put into effect the federal anti-narcotic law. Will the Post say that it is not enforced in Houston? Can it suggest any material reason why opium and whiskey should not occupy the same relation to the law? Does it know any reason for permitting a devotee of the whiskey habit to have more license than a devotee of the opium habit?

Mr. Cecil Lyons left an estate of \$750,000 and the headship of the Roosevelt party in Texas, which nobody seems to rate as an asset.

Governor Colquitt told 'em at Orange what he proposed to do for deep water there. If you don't see what you want, gentlemen, now is the time to ask for it. Speak out quickly, please.

The Waco plan to consolidate the telephone service is rapidly spreading throughout the state. Telephone users are clamoring for relief from conditions which are both costly and irritating.

Both Spain and Brazil are rallying to the support of this country in its fight for neutral rights. If Germany continues to run amuck after the Von Tirpitz fashion, it will soon be left without a friend among the family of nations.

People who clamor for peace on the streets of Berlin land in the first jail that happens to be handy. This is the kaiser's way of meeting protests of that sort. That Chicago society running under an alias would speedily be in limbo if it had the kaiser to deal with.

Half a million dollars was recently unearthed by two children at play in a cellar in Mexico City. It will probably never be known to what an extent the banking business of that country has been carried on in tin cans and by the aid of garden hoses during the last five years.

The Lorimer jury took out eighty-four sets of instructions when it retired. Of course it returned a verdict of "not guilty." Now a jury should be empaneled to try the procedure under which Lorimer was tried. If composed of men of intelligence, it would not tarry long to write a verdict of "guilty."

MARLIN GUARDSMEN TO ATTEND SCHOOL

MORE PAVING TO BE UNDER- TAKEN BY CITY COUNCIL IN NEAR FUTURE.

Belton Bridge Again Endangered and Protective Work Is Re- newed.

Special to the Morning News.

Marlin, May 4.—Officers of the B. C. Clark Light Guards of Marlin are preparing to leave for Austin today to attend the ten days' instruction school. Captain Jameson has received transportation for himself, Lieutenants Hunnicutt and Dedberry, Sergeants Cousins and Stallworth and Musician Schuh.

Escorted by Prof. R. E. Thomas of the Marlin High school, the track team left for Austin today at noon to take part in the state athletic track meet which opens tomorrow morning. The following students compose the team going to Austin: Trousdale Brown, Eugene Herring, T. A. Reeves, Jr., Oscar Phillips, Claude Holt, Clyde Nelson, Doc Beard and Bill Dupuy. Lester Levy and Billie Boy Spivey are in Austin enjoying the occasion with the team.

Reports made by those who have crossed the Belton bridge since the rains of this week indicate that about forty more feet toward the approach on the west side have been washed out by the flood waters of the Brazos. Active work on the protective dykes being constructed was renewed today by the county force.

More street paving will be undertaken by the city council as soon as the proper recommendations have been made by the city engineer and street and alley committee who were instructed to make estimates of the cost of prolonging the pavement on Winter street to Capitan and on Coleman street by the fine new federal building to the I. & G. N. railroad and thence south to the I. & G. N. passenger depot.

Dallas Street Car Management May Be Changed

New York, May 4.—O. D. Young, vice president of the General Electric company, announced that he would leave for Dallas, Texas, today.

"I shall not issue a statement on the Texas public utilities situation until next week," he said.

Mr. Young came to New York from Dallas shortly after an election was held there to decide regarding the policy of that municipality as to franchises held in the name of Stone & Webster. The result of the election was adverse to Stone & Webster, as the representative of the owners of a large interest in the companies involved came east to discuss at headquarters the policy to be pursued.

It is known that one of the things considered was a change in the management of the properties at Dallas. Those well informed also venture the assertion that perhaps some compromise plan was suggested for submission to Mayor Lindsey and the board of commissioners when Mr. Young reaches Dallas.

Bailey to Campaign for Culberson Is Rumor

Washington, May 4.—That former Senator Joseph Weldon Bailey will take the stump soon for United States Senator Charles A. Culberson is a report current here. It is predicted that Bailey's following in Texas will largely swing over to the Culberson cause.

The general belief here is that the New York letters will cut down Colquitt's strength materially.

Texas Bankers Meet in El Paso Next

By the Associated Press. Houston, May 4.—In closing session this afternoon, the Texas Bankers' association selected El Paso as the 1917 convention city and elected J. W. Butler of Clifton president to succeed J. Hirsch of Corpus Christi.

A Texas homestead bank with a capital of from \$2,000,000 to \$3,000,000 with the right to issue debentures covering loans to the amount of twenty times the capital, the capital to be contributed by Texas banks and loaned on the farm lands for purchase or for strictly productive purposes, was the suggestion offered by Clarence Ousley of the college, in his address.

The resolution relating to amending the state banking law so as to reduce the number of examinations to two annually, was adopted with some modification.

Robstown Fire Chief Killed. By the Associated Press. Robstown, May 4.—Felix Baker, gin owner, capitalist and chief of the volunteer fire department, lost his life this morning in a fire which destroyed two buildings in the town.

An estimated loss of \$35,000. An explosion which shattered a wall of the Boatner building buried Mr. Baker under a shower of bricks. When firemen discovered him, he was dead, every bone in his body having been broken.

Waples Will Not Suggest Chairman. By the Associated Press. Fort Worth, May 4.—State Democratic Chairman Waples announced today he would not suggest a temporary chairman for the convention in San Antonio May 23, though such a suggestion is customary. He said he would leave the choice entirely in the hands of the executive committee.

Sugar Company Suit Settled. By the Associated Press. Austin, May 4.—Governor Ferguson who returned today after an absence of four days in Houston, approved of a compromise agreement between the Imperial sugar company of Sugarland and the prison commission, and as a result the suit of the sugar company against the commission is to be dismissed.

Texas's Sentence Commuted. By the Associated Press. Washington, May 4.—The five-year sentence imposed by a federal court on George Rue, assistant cashier of the State National bank of Denison, Texas, for embezzlement of the bank's funds, has been commuted by President Wilson to one year and a day.

That was an awful waste when 30,000 eggs were destroyed at Fort Worth because they were under suspicion. Think of the coming campaign in Texas, and how much it might have been abbreviated by the judicious use of those eggs.

ONE DOES, THE OTHER DEBATES.

The difference between a strong government and a weak one is illustrated by the Sinn Fein outbreak. Birrell, late chief secretary for Ireland, confesses that he is responsible for the proportions which the revolt attained. He was warned in time, but failed to act, and the result was a great loss of life and property. His theoretical benevolence brought disaster upon Ireland and peril to the British empire.

The Sinn Feins were but a handful of the Irish people. At no time did they receive general encouragement, and they were overpowered largely through the aid of Irish civilians and soldiers.

Germany is honeycombed with opposition to the government and to the monarchy. More than half of the people in all of its large cities are, avowedly, in favor of democratic institution and a republic. Yet no revolt of the Sinn Fein nature will be heard from in Germany—at least while the war is in progress. A republic is coming, and the people are now ready for it, but there are reasons in abundance why they will say nothing about it just now.

The difference between the German government and the British government is that one does things and the other debates them in parliament.

LET US HAVE THE REASONS.

Beginning today, Georgia operates under a new prohibition law. Like all previous statutes, it will no doubt be honored more in the breach than the observance.—Houston Post.

If the Post knows where a bottle of liquid paralysis can be secured in Rockwell or Van Zandt counties, a few booze fighters up there will be greatly obliged to it for the information.—Waco News.

All of which supports the Post's contention that Texas under the operation of local option has the best system of legal restraint that has yet been devised in this country for controlling the evils of the liquor traffic. When the overwhelming sentiment of a county or any subdivision of it wants the traffic entirely suppressed, it generally finds a way to enforce its will. That much can not be said for any state that has yet experimented with statewide prohibitory laws.—Houston Post.

The county of Harris did not put into effect the federal anti-narcotic law. Will the Post say that it is not enforced in Houston? Can it suggest any material reason why opium and whiskey should not occupy the same relation to the law? Does it know any reason for permitting a devotee of the whiskey habit to have more license than a devotee of the opium habit?

The Waco plan to consolidate the telephone service is rapidly spreading throughout the state. Telephone users are clamoring for relief from conditions which are both costly and irritating.

Both Spain and Brazil are rallying to the support of this country in its fight for neutral rights. If Germany continues to run amuck after the Von Tirpitz fashion, it will soon be left without a friend among the family of nations.

MARLIN GUARDSMEN TO ATTEND SCHOOL

MORE PAVING TO BE UNDER- TAKEN BY CITY COUNCIL IN NEAR FUTURE.

Belton Bridge Again Endangered and Protective Work Is Renewed.

Special to the Morning News.

Marlin, May 4.—Officers of the B. C. Clark Light Guards of Marlin are preparing to leave for Austin today to attend the ten days' instruction school. Captain Jameson has received transportation for himself, Lieutenants Hunkett and Dedberry, Sergeants Cousins and Stallworth and Musician Schuh.

Escorted by Prof. R. E. Thomas of the Marlin High school, the track team left for Austin today at noon to take which, opens tomorrow morning. The following students compose the team going to Austin: Trousdale Brown, Eugene Herring, T. A. Cheever, Jr., Oscar Phillips, Claude Holt, Clyde Nelson, Doc Beard and Bill Dupuy. Lester Levy and Billie Roy Spivey are in Austin enjoying the occasion with the team.

Reports made by those who have crossed the Belton bridge since the rains of this week indicate that about forty more feet toward the approach on the west side have been washed out by the flood waters of the Brazos. Active work on the protective dykes being constructed was renewed today by the county forces.

More street paving will be undertaken by the city council as soon as the proper recommendations have been made by the city engineer and street and alley committees who were instructed to make estimates of the cost of prolonging the pavement on Winter street to Capps, and on Coleman street by the fine new federal building to the I. & G. N. railroad and thence south to the I. & G. N. passenger depot.

Dallas Street Car Management May Be Changed

New York, May 4.—O. D. Young, vice president of the General Electric company, announced that he would leave for Dallas, Texas, today.

"I shall not issue a statement on the Texas public utilities situation until next week," he said. Mr. Young came to New York from Dallas shortly after an election was held there to decide regarding the policy of that municipality as to franchises held in the name of Stone & Webster. The result of the election was adverse to Stone & Webster, as the representative of the owners of a large interest in the companies involved came east to discuss the situation with Mayor Lindsey and the board of commissioners when Mr. Young reaches Dallas.

It is known that one of the things considered was a change in the management of the properties at Dallas. Those well informed also venture the assertion that perhaps some compromise plan was suggested for submission to Mayor Lindsey and the board of commissioners when Mr. Young reaches Dallas.

Bailey to Campaign for Culberson Is Rumor

Special to the Morning News.

Washington, May 4.—That former Senator Joseph Weldon Bailey will take the stump soon for United States Senator Charles A. Culberson is a report current here. It is predicted that Bailey's following in Texas will largely swing over to the Culberson cause.

The general belief here is that the New York letters will cut down Colquitt's strength materially.

Texas Bankers Meet in El Paso Next

By the Associated Press.

Houston, May 4.—In closing session this afternoon, the Texas Bankers' association selected El Paso as the 1917 convention city and elected J. W. Butler of Clifton president to succeed J. Hirsch of Corpus Christi.

A Texas homestead bank with a capital of from \$2,000,000 to \$3,000,000 with the right to issue debentures covering loans to the amount of twenty times the capital, the capital to be contributed by Texas banks and loaned on farm lands for purchase or for strictly productive purposes, was the suggestion offered by Clarence Outley of the college, in his address.

The resolution relating to amending the state banking law so as to reduce the number of examinations to two annually was adopted with some modification.

Robstown Fire Chief Killed.

By the Associated Press.

Robstown, May 4.—Felix Bauer, gin owner, capitalist and chief of the fire department, died here today in a fire which destroyed two buildings in the business district, at an estimated loss of \$35,000. An explosion which shattered a wall of the Roatner building buried Mr. Bauer under a shower of bricks. When firemen and citizens who witnessed the tragedy dragged him out, he was dead, every bone in his body having been broken.

Waples Will Not Suggest Chairman. By the Associated Press.

Southern Commercial Secretaries Meet at Shreveport

By the Associated Press.

Shreveport, May 4.—Secretaries of chambers of commerce of fifty Southern cities met here today in ninth annual convention of the commercial secretaries. The opening session was featured by the annual report of President A. V. Snell of Charleston, S. C., and addresses by J. I. Bowles Jr., of Knoxville, Tenn., S. C. Rice of Fort Worth, and R. W. Holcombe of Columbia, S. C.

At the afternoon session Secretary-Treasurer Frank M. Andrews of Vicksburg, Miss., read his annual report,

showing the financial condition of the organization, and Dr. Oscar Dowling, chairman of the Louisiana state board of health, read an interesting paper on city sanitation.

The announcement of standing committees was made at the evening session, after which Dr. Clarence J. Owens of Washington, D. C., managing director of the Southern commercial congress, delivered an address on the "Relation of the Southern commercial congress to the commercial organizations of the South."

Don Farnsworth of New York City will deliver an address at tomorrow's session on "Practical suggestions for industrial development by commercial organizations."

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

Musical Federation Gives Brilliant Concert Program

Last night's program arranged by the Texas Federation of Music clubs and presented before an unusually large audience in Carroll chapel makes one more musical offering with which Waco has been favored this week. Such a sequence of musical attractions has never before been given here, and not only the Philharmonic orchestra, but the federation meetings, are indeed a rare opportunity. Representative artists, both instrumentalists and vocalists, of the best talent in the state rendered an advanced and artistic program.

W. J. Marshall of Fort Worth opened the program with Pauline's "Concert Overture" in E flat, for organ. The president of the Texas Federation of Music clubs, Mrs. J. E. Lyons, spoke briefly on the aims of the federation, laying emphasis on the truth that no aggregate of musicians can be worthy their name or do good work by using their art for their own pleasure merely or yet as a means to satisfy personal ambition. The federation stands for the spreading in rendition and knowledge of music in school, home and municipality.

The next speaker, A. L. Manchester, president of the Texas Music Teachers' association, brought out the necessity of co-operation between such organizations as the federation and his own, to lay the foundations, not only of widespread knowledge about music among the people, but also the principles of good taste for the future. Liszt's "Fantasie" for two pianos, played by Miss Clara Phillips and Hans Richard of Sherman, followed. The rendition of this composition, reminiscent of several of the Hungarian Rhapsodies, was an exquisite exhibition of liquid touch and poetic feeling. Miss Phillips' confident, yet delicate touch, and Richard's sonorous and masculine part, Mrs. Pearl Calhoun Davis' voice number next, "Il m'aime, espoir charmant," by Maillet, was a beautifully studied and rendered selection. This was followed by Saint Saens' "Allegro Appassionato," played by Mrs. Virginia Ryan, the local pianist of whom Waco may feel justly proud.

Mrs. D. A. Campbell of Chicago, honorary president of the National Federation of Music clubs, gave the more extended address of the evening, about two o'clock, when she urged, "Get together, stay together, work together and grow together." Its power in expression means state symphony or orchestra, music, the very essence of civilization, all such efforts of the disinterested musical workers, who realize the far-reaching, cultural benefits of worthy music.

Miss Beulah Duncan, who was in splendid voice, sang "June" (Rummler), "Hayfields and Butterflies" (Del Rio) and "O Thou Billowy Harvest Fields" (Rachmaninoff). Joe Wynne of Dallas played Mendelssohn's "Wedding March." Three out-of-town singers followed, Mrs. Ella Courts Beck of Galveston, who sang an aria from Verdi's "Aida," Frank C. Ager, Fort Worth, three modern songs, and Mrs. Frank H. Blankenship of Dallas, an aria from "Maiden Sans-Gene." They were accorded enthusiastic applause, well merited under the circumstances of the program was the Andante and Allegro from the Concerto in C minor, played by Harold von Mickwitz and Joe Wynne.

Ben Greet has been called the father of open-air performances in America, and since the inception of the famous Ben Greet Woodland Players, over fifteen years ago, his highest ambition has been to make this organization the leading one of its kind in the world. That this ambition has been realized is borne out by the fact that each season the company finds more demands for its appearance than it can possibly fill. In these days of realism, when every one seems striving to attain perfection in the naturalistic motif, the theatre must come in for a considerable share of attention, for it is through the medium of the stage that the forms of art assume concrete condition. In the matter of presenting plays, modern European producers have shown the artistic value of the theatre, and concentrating their efforts upon simple decorations which better served to enhance the beauty of the play.

In considering this phase of modern conditions, one is struck with the appropriateness of the idea as it pertains to the presentation of Shakespeare's plays under the auspices of the Ben Greet Woodland Players. This renowned organization does not rely upon the monstrous trappings of the modern theatre to enhance the beauty of the bard's plays, but confines itself strictly to the epitome of realism as exemplified in the utilization of natural trees, leafy boughs, vines and shrubbery as a background, and the grassy turf as a stage.

Waco Looks Good to Man Who Left During Spanish War

Leaving Waco in 1898, after he had been here only a short time; fighting through the Spanish-American war, going then to Honduras, Central America, where he stayed for two years, finally settling down in Okmulgee, Okla., there is in Waco today a man who thinks that Waco has grown faster than any city in Texas that he knows anything about. The man in question is W. H. Wigton, a dealer in coal, and he stopped yesterday at the New State House on reaching the city.

Mr. Wigton came to Waco from Houston in 1898, stayed here a few days; the call for volunteers came for the Spanish-American war and he went to a meeting at the city hall here, enlisting in company F, whose captain was William Lambdin of military fame and who is still serving the government with efficiency in this line. Among others that Mr. Wigton remembers who were in the company were Tom Wolfe, Lee Younce, Fred Post and Hon. Tom Connally, the latter now at Marlin. He met several of these yesterday and had a pleasant time with them; he is still here and thinks there are others who might have been with him.

Mr. Wigton is delighted with Waco, and says this place now looks like a real city to him.

Welfare Committees Have Meetings

The organization of a free class which shall be in the nature of a forum with local specialists in various lines as the lecturers is the aim of the educational committee of the Welfare league as brought out in a meeting at the Raleigh yesterday noon. It is proposed to have teachers in the different public schools and other institutions to talk on their favorite subject. This plan is expected to make the class distinctive in its vigor and enthusiasm and the appeal of the lectures. In line with the democratic spirit of the Welfare league, it is planned to have the membership limited to twenty-five women who are not allied with any clubs and twenty-five honorary members who are connected with literary clubs with a waiting list. All women who do not have a membership in any literary club will be provided for by the class.

This was the chief proposal considered by the committee of the league held a session at the State House yesterday morning when the league's budget for the first year was discussed. The financial campaign which will be held by the league at an early date was also considered and a report of the committee will be made at the next general meeting of the league or at the next meeting of the board of directors.

GREET PLAYERS WILL CLOSE TERCENTENARY

FAMOUS WOODLAND PLAYERS
WILL APPEAR ON BAYLOR
CAMPUS MAY 11-12.

This Company is a Pioneer of the
Open-air Performance and is
from England.

Ben Greet has been called the father of open-air performances in America, and since the inception of the famous Ben Greet Woodland Players, over fifteen years ago, his highest ambition has been to make this organization the leading one of its kind in the world.

That this ambition has been realized is borne out by the fact that each season the company finds more demands for its appearance than it can possibly fill. In these days of realism, when every one seems striving to attain perfection in the naturalistic motif, the theatre must come in for a considerable share of attention, for it is through the medium of the stage that the forms of art assume concrete condition. In the matter of presenting plays, modern European producers have shown the artistic value of the theatre, and concentrating their efforts upon simple decorations which better served to enhance the beauty of the play.

In considering this phase of modern conditions, one is struck with the appropriateness of the idea as it pertains to the presentation of Shakespeare's plays under the auspices of the Ben Greet Woodland Players. This renowned organization does not rely upon the monstrous trappings of the modern theatre to enhance the beauty of the bard's plays, but confines itself strictly to the epitome of realism as exemplified in the utilization of natural trees, leafy boughs, vines and shrubbery as a background, and the grassy turf as a stage.

A peculiar fact of their performances is that the plays are given virtually in their entire original text, and throughout the country, hundreds of critical people have expressed appreciation for Mr. Greet's intelligence in leaving the original text as it was written and not attempting to improve on the great master. So it is Elizabethan times of the olden days when Shakespeare ruled the destinies of the Globe theatre, London, and presented his plays exactly as they are, being given by the Ben Greet Woodland Players.

Originally organized in England by Ben Greet, at the time of Queen Victoria's jubilee, the players have attained wide celebrity. Despite the fact that other companies have won laurels, Ben Greet is far in the lead and is this year having his most successful year. Every phase of the company has been re-ceived with the greatest enthusiasm; and it is expected that this year will record the greatest open-air audience ever seen on the Baylor campus. The Ben Greet Players will mark the climax of Waco's tercentenary Shakespeare festival.

HUSBAND OBJECTS TO OPERATION

Wife Cured by Lydia E.
Pinkham's Vegetable
Compound

Des Moines, Iowa.—"Four years ago I was very sick and my life was nearly spent. The doctors stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got me some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced to get better and am now well, am stout and able to do my own housework. I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave ere this if it had not been for your Vegetable Compound."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Before submitting to a surgical operation it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound; it has saved many women from surgical operations. Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential.

FULL PROGRAM MARKS MUSICAL CONVENTION

MEETING PLACE FOR SECOND AN-
NUAL GATHERING WILL BE
SELECTED.

Selections by Artists Are Interspersed
With Addresses and Business
Considerations.

Choosing the meeting place for the 1917 convention will be one of the features of the morning session of the Texas Federation of Music clubs that is meeting here. This session will bring to a close the first annual convention, which has thus far been very successful. Reports yesterday showed that fifty delegates had registered for the convention and that ninety visitors were present. Some of the most talented musicians of the state are included in the delegates and visitors and a number of managers of music artists are also present.

The session yesterday morning, which was held at the Raleigh hotel, was opened by an invocation by Rev. F. N. Calvin, pastor of the Central Christian church. Hon. John Maxwell, city attorney, gave the address of welcome, complimenting the organization upon the large attendance and saying that Waco felt honored at having the first annual convention to be held in this city.

Mrs. Gentry Waldo of Houston responded and greetings were extended by Miss Louise Pace of Corsicana, honorary vice president of the federation. Mrs. J. O. Jahn of Dallas read the report of the committee on rules and regulations. Club reports were also made, followed by a general discussion by those present.

Miss Louise Larson of Waco rendered a piano solo and a vocal solo was rendered by Miss Agnes Gannon of Dallas.

Yesterday noon the delegates and visitors were guests of the Chamber of Commerce at a luncheon served in the Hotel Raleigh. During the afternoon they were given an automobile ride over the city and later were guests of the Young Men's Business League at a tea at the Raleigh which was arranged by the City Federation of Women's clubs.

Following is the program for the remainder of the day which was carried out:

Piano solo, (a) "Etude" C minor (Chopin); (b) "The King" (Schubert-Liszt), Mrs. Joseph B. Rucker, Dallas.

Group of folk songs, Miss Jennie Hill Barry, Sherman.

Reports of standing committees: Club extension, Mrs. Joseph G. Wren, Waco; press and publicity, Miss Kitty Barry, Howard, Fort Worth; artists' bureau, Mrs. Gentry Waldo, Houston.

Talks from visiting artists' managers, "Standardization of Music Teaching," Miss Carrie Louise Dunning.

"Courses of Study and Program Exchange," Mrs. Virginia Ryan, Waco. "How to Study the Operas," Mrs. J. A. Jahn, Dallas.

"Library Extension," Mrs. Gas Russell, Sulphur Springs, Tex.

"What Symphony Orchestras Mean to the Community," Carl Venth, Fort Worth.

"Public School Music," Miss Elfreda Littlejohn, Galveston.

Program by Waco public school children, directed by Miss Patty Casseday. Vocal solo, "Il Sultano," from "La Gioconda" (Ponchielli), Miss Ethel Radcliffe, Sherman.

Club reports. Announcements. Adjournment.

Automobile ride, 4:30 o'clock, courtesy of Rotary club.

Tea at Hotel Raleigh, courtesy of Y. M. B. L. arrangements by City Federation of Women's clubs.

Officers for the federation will not be elected this year, as they were chosen last year to serve two terms. Following is the program for today which will close the convention:

9:30, call to order. Reading of minutes. Scholarship committee reports. Scholarship committee, Miss Hollie Groce, Waxahatchie, chairman; discussion.

Music numbers by scholarship students. Community music, Mrs. Katherine M. Montero, Houston, chairman. Talks by Prof. Frank L. Reid, Austin, and Dr. W. S. Lockhart, Houston. Contest committee, Miss Blanche McKee, Corsicana, chairman.

State contest for place on artists' program of National Federation of Music clubs at Birmingham, Ala., May, 1917.

Next night an attractive musical program was carried out at Carroll chapel.

CALOMEL TODAY, SICK TOMORROW

DOSE OF NASTY CALOMEL MAKES
YOU SICK AND YOU LOSE A
DAY'S WORK.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just get a bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

TRADE TRIPS BEGIN ON NEXT THURSDAY

Plans for the first trade trip of this year under the auspices of the Y. M. B. L. are being pushed right along, and already enough have signed up for the trips to make it certain that they will be among the best, if not the best, ever held out of Waco.

The start on the one-day trade trips will be made next Thursday morning, when Comanche and intervening towns on the Cotton Belt will be included as stopping points by the trade evangels. The special train and band and the good will and hearty cheer will make of the occasion one which will not only be enjoyed by the participants, but will bind yet more closely the people in Waco's natural territory point and will cement still more closely the personal friendships which have been formed or may be formed.

A large number who have not yet signed up have signified their intention of going, and it looks as though this might be almost a record breaker in point of attendance. President Perry A. Duncan of the Y. M. B. L. and all the workers feel gratified over the interest which is being shown and the practical manner in which it is being shown.

Baylor Students Pull Off Burlesque Stunt on Would-be Senators

The Baylor Brooks club scored a big hit with the Baylor students yesterday when it produced one of the most unique programs that has been staged in Baylor circles for quite awhile before an audience which represented the majority of the student body.

The program, which was in the form of a political campaign, was presided over by J. W. Smith, president of the Baylor Brooks club, who introduced each of the speakers. Each speaker represented one of the present candidates for the senatorial race, and after being introduced as such, launched out in flights of oratory, demanding the vote of the citizenship on the platforms which are embodied in the platforms of their respective admirers. The whole program was a rich burlesque on the present senatorial race and each speaker brought out the weakness rather than the strength of the present candidates. The speeches were punctuated with humor and personal allusions, which were even more effective in view of the fact that at the candidatures of the present candidates the opportunity of "getting back" at each other.

The Baylor band rendered a band concert before the opening of the program. In the midst of one of the popular "airs" the candidates made their appearance, creating quite a sensation in their statesman paraphernalia, and adding zest to the military music among the crowd introducing themselves and soliciting the support of the audience.

Those taking part in the program other than the chairman were William Miller as Culberson, J. C. Mitchell as Riddle, Vernon Hill as Davis, Robert Ward as Henry, Hilton Howell as Campbell, Dan Kelly as Colquitt, and H. C. Stewart as Brooks.

Conservation Meet Comes to End

By the Associated Press.
Washington, May 4.—Election of officers today ended the three days' meeting here of the National Conservation congress, whose sessions were featured by a sharp fight over the attitude the congress should take in the matter of water power control. Opponents of the Shreve water power bill, passed by the senate, who yesterday lost their fight to prevent endorsement of the measure, did not renew their efforts to regain control of the congress, and new officers were elected without opposition.

G. E. Sondra, Nebraska state conservation commissioner, was named president.

Plan for Methodist Unity Urged

By the Associated Press.
Saratoga Springs, N. Y., May 4.—Definite action intended to effect a union of the Methodist Episcopal churches in America was recommended in a report submitted to the general conference today by Bishop Earl Cranston for the commission on federation, which the conference had referred to preliminary negotiations. The commission endorsed the proposal to unite the branches of the denomination, and requested the appointment of a committee authorized to conduct negotiations with the Methodist Episcopal church, South; the Methodist Protestant church and other kindred Wesleyan bodies. This commission would report with recommendations to the general conference in 1920.

The report embodies without comment a proposed plan of unity in which the Southern church, which, passed by the action of the conference today, was submitted to a special committee with instructions to report within ten days. This plan embodies a unification of the Methodist bodies into one general conference with three subordinate quadrennial conferences, one for the east, west and south.

GREET PLAYERS WILL CLOSE TRICENTENARY

FAMOUS WOODLAND PLAYERS WILL APPEAR ON BAYLOR CAMPUS MAY 11-12.

This Company is a Pioneer of the Open-Air Performance and is from England.

Ben Greet has been called the father of open-air performances in America, and since the inception of the famous Ben Greet Woodland Players, over fifteen years ago, his highest ambition has been to make this organization the leading one of its kind in the world.

That this ambition has been realized is borne out by the fact that each season the company finds more demands for its appearance than it can possibly fill. In these days of realism, when every one seems striving to attain perfection in the naturalistic method of the theatre, it is not surprising that the medium of the stage that many forms of art assume concrete condition. In the matter of presenting plays, modern European producers have shown the artistic value of dispensing with gaudy and elaborate stage settings, and concentrating their efforts upon simple decorations which better served to enhance the beauty of the play.

In considering this phase of modern conditions, one is struck with the appropriateness of the idea as it pertains to the presentation of Shakespeare's plays under the auspices of the Ben Greet Woodland Players. This renowned organization does not rely upon the monstrous trappings of the modern theatre to enhance the beauty of the bard's plays, but confines itself strictly to the epitome of realism as exemplified in the utilization of natural trees, leafy boughs, vines and shrubbery as a background, and the grassy turf as a stage.

A peculiar fact of their performances is that the plays are given virtually in their entirety. Not a line has been changed from the way it was first written in the seventeenth century, and throughout the country, hundreds of critical people have expressed their appreciation for Mr. Greet's intelligence in leaving the original text as it is, and not attempting to improve on the great master. So it is that their performances savor of real Elizabethan times, of the olden days when Shakespeare ruled the destinies of the Globe theatre, London, and presented his plays exactly as they are now being given by the Ben Greet Woodland Players.

Originally organized in England by Ben Greet at the time of Queen Victoria's jubilee, the players have attained wide celebrity. Despite the fact that other companies have won laurels, Ben Greet is far in the lead and is this year having his most successful year. Every place the company has been received with the greatest enthusiasm; and it is expected that this year will record the greatest open-air audience ever seen on the Baylor campus. The Ben Greet Players will mark the climax of Waco's tricentenary Shakespeare festival.

Leaving Waco in 1898, after he had been here only a short time; fighting through the Spanish-American war, going then to Honduras, Central America, where he stayed for two years, finally settling down in Okmulgee, Okla., there is in Waco today a man who thinks that Waco has grown faster than any city in Texas that he knows anything about. The man in question is W. H. Wigton, a dealer in coal, and he stopped yesterday at the New State House on reaching the city.

Mr. Wigton came to Waco from Houston in 1898, stayed here a few days; the call for volunteers came for the Spanish-American war and he went to a meeting at the city hall here, enlisted in company F, whose captain was Richard A. Lee, and fought in the latter part of the war. He met several of these yesterday and had a pleasant time with them; he is still here and thinks that Waco is a city that might have been with him.

Mr. Wigton is delighted with Waco, and says this place now looks like a real city to him.

Welfare Committees Have Meetings

The organization of a free class which shall be in the nature of a forum with local specialists in various lines as the lecturers is the aim of the educational committee of the Welfare league as brought out in a meeting at the Raleigh yesterday noon. It is proposed to have teachers in the different public schools and other institutions to talk on their favorite subject. This plan is expected to make the class distinctive in its vigor and enthusiasm and the appeal of the lectures. In line with the democratic spirit of the Welfare league, it is planned to have the membership limited to twenty-five women who are not allied with any clubs and twenty-five honorary members who are connected with literary clubs with a waiting list. All women who do not have a membership in any literary club will be provided for by the class.

This was the chief proposal considered by the committee but other matters of an educational character in line with the purposes of the league were suggested in the informal conference of the committee.

The financial committee of the league held a session at the State House yesterday morning when the league's budget for the first year was discussed. The financial campaign which will be held by the league at an early date was also considered and a report of the committee will be made at the next general meeting of the league or at the next meeting of the board of directors.

FULL PROGRAM MARKS MUSICAL CONVENTION

MEETING PLACE FOR SECOND ANNUAL GATHERING WILL BE SELECTED.

Selections by Artists Are Interpersed With Addresses and Business Considerations.

Choosing the meeting place for the 1917 convention will be one of the features of the morning session of the Texas Federation of Music clubs that is meeting here. This session will bring to a close the first annual convention, which has thus far been very successful. Reports yesterday showed that fifty delegates had registered for the convention and that ninety visitors were present. Some of the most talented musicians of the state are included in the delegates and visitors and a number of managers of music artists are also present.

The session yesterday morning, which was held at the Raleigh hotel, was opened by an invocation by Rev. F. N. Calvin, pastor of the Central Christian church. Hon. John Maxwell, city attorney, gave the address of welcome, complimenting the organization upon the large attendance and saying that Waco felt honored at having the first annual convention to be held in this city.

Mrs. Gentry Waldo of Houston responded and greetings were extended by Miss Louise Pace of Corsicana, honorary vice president of the federation. Mrs. J. O. John of Dallas read the report of the committee on rules and regulations. Club reports were also made, followed by a general discussion by those present.

ANOTHER WACO CASE

Just another report of a case in Waco. Another typical case. Kidney ailments rendered in Waco with Doan's Kidney Pills.

J. P. Bahl, proprietor Metropole Barber Shop, residing at 518 N. 16th street, Waco, gave the following account of his experience in December, 1911. He said: "Kidney complaint caused me much suffering. I had a feeling of languor and headaches and dizzy spells. Sharp twinges darted across my back as if a knife were being thrust into my body. I was very nervous and couldn't rest nights. One box of Doan's Kidney Pills soon regulated the action of my kidneys and removed the pains throughout my body."

On May 12th, 1915, Mr. Bahl said: "Colds sometimes disorder my kidneys, but I can rely on Doan's Kidney Pills to give me relief. I have used Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bahl has twice recommended. Foster-Milburn Co., Props., Buffalo, N. Y."

HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE, RELIABLE WAY.

People who are overburdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from Morrison's Old Corner Drug Store or any good druggist a box of oil of korein capsules. Take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight. Footsteps become lighter, more work seems easier and a lighter and more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.

PITCHERS BATTLE ALL THE WAY

Lefty Hill Strikes Out Ten—Both
Twirlers Hold Opponents to
Five Hits.

(With Apologies to Ring W.
Lardner).

Dere Al

Well old man I went out there to-
day and win 'em another game. And
the best I got from that bunch
of nockers was a big hammer about
bein' a lucky stiff can you beat that?

This hear Hill the left-handed slob
was pitchin' for the other side and
our side couldn't do nuthin with his
deliv'ery at all until I got to him in
the 6 endin' for one that would have
been again' yet if it hadn't of bene
for the fence and it ought u' bene
at least a 3 or 4 base hit only every
time I kum up there the outfielders
get so far back they look like draw-
ers. You know me Al.

Anyhow it hapened this way I was
first up in the 5 and this hear lucky
stiff Hill was pitchin when I
come up and see if you can't draw a
walk or sumpin, I drawed sumpin.
(preety keen eh Al). As I was sayin'
he 4 I pulled that keen one this here
lucky stiff Hill bein left handed had
me hittin out of pershunan and turned
around right handed cause I don't
hit left handers very good they might
bene me. well ennyhow this hear
Hill got scared of me right away
cause he seen I kum up there and he
throwed me 3 balls I couldn't have
hit with a circus pole fer a bat and
the old man hollered from the bench
and told me I had him in the whole
just like I didn't know I had him in
the hole and then he grooved one and
I took it and sez to myself if he
grooves another I'll put it out of
the park so I took a toe-holt and
when he grooved it I didn't hit it out
of the park cause I turned it two far
to center and it only wuz a 2 bager.

I won the game by a sick piece of
work and when it was called a bone
and when I told the old man I meant
to get caught off third so this here
Reilly would hit me in the head and
let the ball bounce out in left field
so I could score he laffed at me
what do you think of that your friend
JAWN.

If young Mr. Lefty Hill had pitched as
good ball yesterday before he got in the
hole as he did after he got in the hole
Houston could have struggled against
him for just exactly fifteen hundred years
and never have scored, no matter how
badly Lefty's support looked. As it was,
after pitching himself into numerous
tight places, he might still have held 'em
runless for two or three hours longer
had it not been for an unlucky error by
Reilly.

Hill had three bad innings from his
own fault and one from a wobbly support.
Outside of this he never even threat-
ened. In the 6th he started the inning
by walking Tullos and the team work
went bad on Jenkins' turn. With Ed-
mondson bunting, two on and none out,
Hill retired Tullos at third, struck Lee
out for the second time and the side was
retired when Seitz popped up.

The fifth inning was almost an exact
duplicate of the third, and on the same
batters. Tullos drew a walk, Jenkins
perfect bunt down the third base line
was beaten out by him, Edmondson
hunted and Tullos was retired at third
by Hill, Lee struck out and Seitz was re-
tired Grubb to end the inning.

In the sixth Hill gave Frierson three
wide ones in a row. Then he grooved
one. Frierson took a toe-holt. Then Hill
grooved another one. After Coyle got
through running it down, Frierson was
on second with none out. Newman failed
to bunt on two trials and retired on a
long fly to left-center. Northern hit a
weak one to Cook on which Frierson
reached third. Citrano drew a walk.
On an attempted double steal Reilly
faked a throw to second off third forty
feet. Everybody's head aigh of relief.
But Reilly, after running his victim too
close to third before throwing the ball,
hit him in the back with it and he Hill
went off into left field, allowing the only
score of the game.

But Hill wasn't doing all the good pitch-
ing by a whole lot. Matter Edmondson
was out there with some fine boxwork
of his own, and the farther he went the
better he got. He undoubtedly was saved
Waco's first chance by a grand support.
After Tanner had popped up, Con-
well rolled a fizzle down the path to the
pitcher, who threw to third, catching
Coyle. Conwell was out a moment later
on an attempted steal. James opened the second inning with a
scratch single to first, but was forced out
by Grubb. Malquist hit a long line
drive to left, which Lee nabbed and
caught Grubb rounding second, on a hit
and run. The double was completed easily
by means of a relay. After that Edmond-
son was never in danger, although good
catches by Northern in the third and by
Chellette in the fourth throttled the first
man off first in each instance. In the
sixth Reilly opened with a single and
was sacrificed to second by Hill, but
Tanner grounded out and Coyle's line
drive to center was almost straight at
Frierson.

In the ninth Kuhn was sent in to bat
for Hill and scratched a single past Tul-
los. Tanner failed to sacrifice, however,
and proved Edmondson's only strikeout
victim in the game. Kuhn was forced
at second by Coyle and Conwell fled out
at second.

The pitching records show some inter-
esting comparisons. The hits were even,
although all of the visitors were scratches
except Frierson's drive. Hill struck out
ten men against Edmondson's one. How-
ever, Edmondson was never in the hole
and did not walk a man, while three,
two of whom were the first men up,
It was a hair-raising game and a hard
one to lose, but it certainly was a skill
for the knockers to open. And just as
a thought for the knockers this morn-
ing: Wonder if old Kaiser wouldn't be

In there now if wasn't for some of the
Hammer boys?

Sporting Comment

Houston again today, 4.30.

"Red" Causey may start today.

Big George Sage is due to start, also.

Coyle hollered "I got it"—but he didn't
get it by any mile.

Big crowd out yesterday saw a good
game, if Waco did lose.

Oh well; Fred may not have gotten
that home run, after all.

Citrano made a catch that has never
excelled in anybody's ball game.

That was a lusty swat of Frierson's, at
that. The center fielder made a couple
of nice catches, too.

And the tough part of it all was that
Houston had to be the club that took
such a hard game. Ah, well—

Some day when they need a pinch hitter
right bat, it might do to take a chance
on that Zimmy boy. He sure does play
old baseball.

Funny how those old birds hang on in
the big leagues, isn't it? Matthewson,
Coombs, Plank, Bender and Groom still
appear to have many a good game in the
old arms.

The races in the three big leagues—
Texas, National and American—have
developed into a runaway yet, by a
juggly. Every team in the lot has a
chance except the joints. Poor old Jawm
Muggsy.

It looked like an error of judgment in
sending Kuhn to bat when Edmondson
had never been in the hole in his eight
innings. "Red" is chiefly notorious for
his ability to "wait 'em out." However,
after taking a look, he hit one that Tullos
couldn't handle.

Indigestion May Be Due to Constipation

NEGLECT OF IMPORTANT FUNCTION MAY SERIOUSLY IMPAIR THE HEALTH.

There are many people who believe they suffer from indigestion when their discomfort really is due to a constipated condition. Bloat, with its attendant mental depression, sick-headache, the belching of sour stomach gases, etc., are frequently due to inaction of the bowels. Relieve the congestion and the trouble usually disappears. The use of cathartics and purgatives should be avoided, however, these shock the system unnecessarily and, at best, their effect is but temporary. A mild laxative is far preferable.

The compound of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended. Mr. Benj. Bassin, 360 Madison St., Gary, Ind., thinks Dr. Caldwell's Syrup Pepsin a wonderful medicine; for four years he had a severe case of indigestion and constipation before trying Dr. Caldwell's Syrup Pepsin, which he is glad to recommend to all who suffer with stomach and bowel trouble.

BENJ. BASSIN.

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. H. Caldwell, 404 Washington St., Monticello, Ill.

PERSONAL MENTION

Mr. and Mrs. Thomas Poyner have returned from Bartlett, where they have been on a visit.

Miss Minnie Clark of Hico returned home yesterday after a brief visit with her uncle, N. B. Clark. Miss Clark came to Waco to attend the New York Philharmonic concert on Wednesday night.

T. W. Peeler of Greenville spent yesterday in the city.

T. B. Jones of Fort Worth was here yesterday.

Mrs. Fannie Wilcox of Sanger arrived.

CITY NEWS BRIEFS

C. K. Wiel and Frank Trau left last night for Corpus Christi, where they will attend the state meeting of the Travelers' Protective association. The state convention begins at Corpus Christi today and will continue through tomorrow. Mr. Wiel is president of the local post of T. P. A. members, while Mr. Trau is a member of the state board of directors. No matters of special importance are to come before the state meeting so far as known.

In a letter received yesterday by C. M. Hubby from Corpus Christi, written on May 2, it was stated that no rain of consequence had fallen there and that only slight showers had come to relieve that section of its protracted drought.

It is noted that when big entertainments, musicals, theatricals, etc., are pulled off in Waco now there are many visitors from points as far off as fifty to seventy-five miles, according to the drawing power of the attractions given. The railroads, interurbans and autos bring in the people, and this is tending to strengthen the chances for holding really big things in Waco.

Interest seems to be growing in the movement to develop Waco into a great convention center, as it is believed that aside from the many direct benefits of the visits of people from all sections of Texas, many of those who come will like the city so well that they will want to make it their permanent home. The hotel facilities here are now considered to be ahead of any city in Texas, and Waco's class.

There are now eight of the air brake cars in operation on Waco street railroads, and others are being prepared as rapidly as possible by the local management of the Southern Traction

company. The cars are being fixed up with air brakes at the rate of about four or five each month, and are also being overhauled and bettered otherwise while they are being worked on, so that the service will really be improved in addition to the installing ultimately of the air brake cars on all lines of the city. The air brakes are said to work well, and the motormen have a better chance to control them and to avoid accidents.

Press Dispatches in the Morning News yesterday referred to the election by the board of missions of the Methodist Church, South, in session at Nashville of Percy D. Maddin as a member of the board to succeed Whiteford R. Cole, resigned. Mr. Maddin is a brother of Mrs. J. B. Earle and Mrs. Nannie Port of Waco, and is known to a good many people of this city, having visited here several times. He is the grandson of a Methodist minister who established the first Sunday school in Nashville, and is one of the most prominent citizens of Tennessee.

A wagon load of charcoal in the wagon yard at Sixth and Mary streets caught fire about 3:15 yesterday morning and a call was sent in to the fire department. The wagon load was pretty badly burned, while the charcoal was nearly all consumed by the flames. It is supposed that some of the coal had been afire from the furnace pit where it was prepared.

Superintendent J. W. Evans of the M. & T. railroad, yesterday returned from DeSoto, Mo., where he went to attend the funeral of Mrs. Evans' mother, Mrs. Thomas. Mrs. Thomas died in Waco at the residence of Mr. Evans, but the funeral took place at DeSoto.

THREE WOMEN BARELY ESCAPE IN EARLY FIRE

BLAZE IN THE ALAMO THEATRE CATCHES WOMEN SLEEPING IN QUARTERS ABOVE.

Adjoining Businesses Suffer—Total Loss on Theatre is Estimated at Over \$5000.

A fire which originated in some unknown manner in the Alamo theatre at 406 Austin avenue yesterday morning at 5:30 o'clock destroyed the contents of the theatre, wrecked the building badly, did considerable damage to two or three small lines of business in front of the building, and came near suffocating Mrs. J. W. Terry and two other women before they could get out of the blazing structures. Mrs. J. W. Terry, her sister-in-law, Miss Cora Terry, cashier at the Alamo, and Miss Mildred Ikard, cashier at the Postal Telegraph office in Waco, were forced by the stifling smoke to break a window and escape to the awning below in their night clothes, as they had to flee precipitately to escape death. Mrs. Terry opened the door leading to the stairway when it was found the building was on fire, and the rush of smoke overcame her for a few minutes, but she recovered and the women then rushed to the window, broke it and jumped to the awning below.

The building belonged to the McClelland estate, of which John K. Rose is now in charge. It is a two-story structure, fronting twenty-five feet on Austin avenue and extending back to the alley southward. The fire originated in the rear of the building, but it is stated that it could not have originated from electric wiring, as the building was thoroughly and carefully wired less than a year ago, putting it in first-class condition in this respect.

J. W. Terry, proprietor of the picture show, was off on his regular run on the L. & N. railroad, and reached here last night to find that his theatre and also his place of residence, which was over the picture show floor, had burned. The loss of Mr. Terry and family was almost complete, both as to the picture show and their furniture and other things.

The E. E. Thompson paint and wall paper business immediately adjoins the burned building on the east, but the damage there was probably less than \$200, and was confined to some wall paper which was damaged when a few windows communicating with the upper portion of this business were shot through by the streams of water which had to go everywhere in order to put out the flames.

Even more remarkable was the experience of W. J. Mitchell, the clothing and shirt man, on the west side of the burned theatre, as Mr. Mitchell said yesterday morning, "I am really not damaged at all, the smoke that got in not amounting to much, and there being no actual injury to my stock whatsoever."

Less fortunate, however, were two little lines of business in the front of the Alamo building. O. D. Adams, who had a space in the front for cigars, cigarettes and a shining parlor, had his stock of cigarettes badly damaged by water and smoke, while his chairs for the shining parlor were badly soaked and smoked, while other damage was done which will probably reach a total of \$200; he had no insurance, this having lapsed a few weeks ago, his intention being to renew it, but he had not done so.

The shoe shop of Barcelona & Vitoria, also in the front of the building, on the west side, was damaged probably to the extent of \$200, some expensive machinery being badly damaged and other damage to stock resulting. They estimate their loss at \$300, which they had only opened business the morning before the fire.

The fire department did remarkable work in keeping the fire confined to the building as was done, and this is another illustration of the effectiveness of Waco's department. Mr. Terry had \$2,500 insurance on the picture show and his holdings in the building, but this will not cover his loss. The building was damaged probably \$5,000, covered by insurance. The dental office of Dr. F. G. Sorey, upstairs, was also badly damaged. The estimate of damages on the theatre and contents belonging to Mr. Terry was as high as \$5,000, which would make a loss of \$2,500 above the insurance. Costumes of actors in the rooms above the theatre were not insured and were a loss.

Morrow Street M. E. Has a New Member Reception Tonight

Following the plan of holding a church reception each time that a total of fifty members has been received, the second program if this character within the year will be held at the Morrow Street Methodist church this evening at 8 o'clock. This will make a total of 162 members received by the church in a period of some twelve months. Following a brief speakers' program an informal reception with refreshments will be the order for the evening. Prof. J. B. Postel will speak on "What the Church Can Do for the New Member." Mr. Lynch will talk on "What a New Member Can Do for the Church," and C. S. Appel will be the subject of "What All Together Can Do for the Community." Rev. H. L. Munger is pastor of the church.

THE AMERICAN TOBACCO COMPANY

"WACO PLAN" WILL START NEW CHAPTER IN JEWISH HISTORY

With the indorsement by the district meeting of the B'nai B'rith at Little Rock, it is declared that the Waco colony plan is the beginning of a new era in Jewish organization in America. Besides being a great movement among the Jews of the South, it will prove an experiment on a gigantic scale of the farm-colony plan and will be a wonderful crystallization of the back-to-the-farm movement.

Two of the most ardent supporters of the plan are Rabbi I. Warsaw and Louie Mikel of this city, who were in attendance at the Little Rock convention. After a resolution indorsing the movement had been submitted to the resolution committee and voted down, Dr. Warsaw made his appeal from the floor for the sanction of the epochal movement and after nearly three hours heated discussion, it was carried by a vote of 55 to 42, then was made unanimous.

Testifying to the general interest in the plan, each delegation from the various states appointed one representative to serve on a board of trustees. With \$30,000 already pledged from this state toward the movement, the trustees will start a campaign for \$500,000 or more to push the proposal through. It is pointed out that the securing of the colony for Waco, which seems probable, will mean a tremendous boon to Waco and be a winner as advertising the city throughout the nation.

The following trustees have been appointed: Oklahoma, I. R. Levy, president of a first national bank; Louisiana, A. Bernstein, president grand lodge, bank; Tennessee, Hon. N. Cohen, prominent attorney; Mississippi, A. Goldstein, capitalist and prominent merchant; Arkansas, candidate for mayor of Little Rock; Alabama, Leon Schwartz.

TEAMS WILL START K. OF C. CAMPAIGN

Looking toward the carrying of a large delegation of Wacoans over the Katy special to Dallas on Tuesday, May 9, in an attempt to land the grand lodge of the Knights of Pythias in 1917, teams from the Cowan lodge, the Y. M. E. L., the Rotarians and the Central Labor council will meet in the Chamber of Commerce rooms this evening at 10 o'clock to begin a campaign of the city. A special reduced rate of \$1.50 for the round trip to Dallas has been secured and it is the hope of the teams to get several hundred to make the trip. In addition to making a pull for the next annual grand lodge, it is hoped to swing sentiment toward

Waco as the permanent home of the Knights of Pythias. It is the plan of the teams to complete the canvass of the business section of the city by 6 p. m.

Teams announced yesterday were:

From Rotary club—
No. 1—D. F. Beeman, C. H. Anderson and W. L. Geer.

No. 2—C. P. Guthrie, A. A. Davis and Rev. E. Lane.

From Central Labor council—

The DOCTOR'S ADVICE by Dr. Lewis Baker

The questions answered below are general in character, the answers or directions given are given and the answers will apply in any case of similar nature. Those wishing further help, free, may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, O., enclosing self-addressed stamped envelope, ready for return. Full name and address must be given, but only initials or fictitious names will be used in any answers. The prescription can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

know what to do for rheumatism, as I am so crippled that I cannot walk. Please answer at once."

Answer: Here is the best remedy for rheumatism that is known, and it takes according to directions you will soon be out again and be strong and well. Get 2 drams of iodide of potassium; 4 drams sodium salicylate, 1-2 oz. wine of colchicum, 1 oz. comp. essence cardui, 1 oz. comp. fluid balmwort and 5 ozs. of syrup sarsaparilla comp. Mix and take a teaspoonful at meal time and again before going to bed.

C. O. C. asks: "I am constipated, tongue coated, have headaches, dizzy spells and indigestion sometimes. Please advise."

Answer: I advise that you begin using three grain sulphur tablets (not sulphur). These tablets are laxative, act on the liver, kidneys and bowels and tend to keep the blood pure, by arousing the eliminative functions. Relief should follow quickly.

"Secretary" writes: "I have pains in my spine and frightful headache in back of head, fainting spells, twitching and trembling, nervousness, sleeplessness, loss of appetite and strength, and in fact am 'has been' when it comes to performing accustomed work and duties. Please advise."

Answer: In all such cases the assimilative functions have not kept pace with waste functions and a powerful harmless tonic treatment is needed. I find three grain cadomene tablets excel and astonishingly beneficial in such cases and advise them for you.

Mrs. C. W. B. asks: "I suffer greatly owing to too much fat. Can you advise me of a good reduction remedy?"

Answer: Any well stocked pharmacy can supply you with 5 grain arbolone tablets, packed in sealed tubes with full directions for use. These tablets have proven wonderfully effective in reducing abnormal fat.

Indigestion May Be Due to Constipation

NEGLECT OF IMPORTANT FUNCTION MAY SERIOUSLY IMPAIR THE HEALTH.

There are many people who believe they suffer from indigestion when their discomfort really is due to a constipated condition.

Bloat, with its attendant mental depression, sick-headache, the belching of sour stomach gases, etc., are frequently due to inaction of the bowels. Relieve the congestion and the trouble usually disappears. The use of cathartics and purgatives should be avoided, however; these shock the system unnecessarily and, at best, their effect is but temporary. A mild laxative is far preferable.

The compound of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended. Mr. Benj. Bassin, 360 Madison St., Gary, Ind., thinks Dr. Caldwell's Syrup Pepsin a wonderful medicine; for four years he had a severe case of indigestion and constipation before trying Dr. Caldwell's Syrup Pepsin, which he is glad to recommend to all who suffer with stomach and bowel trouble.

BENJ. BASSIN.

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when occasion arises, and a trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 434 Washington St., Monticello, Ill.

THREE WOMEN BARELY ESCAPE IN EARLY FIRE

BLAZE IN THE ALAMO THEATRE CATCHES WOMEN SLEEPING IN QUARTERS ABOVE.

Adjoining Businesses Suffer—Total Loss on Theatre Is Estimated at Over \$5000.

A fire which originated in some unknown manner in the Alamo theatre at 406 Austin avenue yesterday morning at 5:30 o'clock destroyed the contents of the theatre, wrecked the building badly, did considerable damage to two or three small lines of business in front of the building, and came near suffocating Mrs. J. W. Terry and two other women before they could get out of the blazing structure. Mrs. J. W. Terry, her sister-in-law, Miss Cora Terry, cashier at the Alamo, and Miss Mildred Ikard, cashier at the Postal Telegraph office in Waco, were forced by the stifling smoke to break a window and escape to the awning below in their night clothes, as they had to flee precipitately to escape death. Mrs. Terry opened the door leading to the stairway when it was found the building was on fire, and the rush of smoke overcame her for a few minutes, but she recovered and the women then rushed to the window, broke it and jumped to the awning below.

The building belonged to the McClelland estate, of which John K. Rose is now in charge. It is a two-story structure, fronting twenty-five feet on Austin avenue and extending back to the alley southward.

The fire originated in the rear of the building, but it is stated that it could not have originated from electric wiring, as the building was thoroughly and carefully wired less than a year ago, putting it in first-class condition in this respect.

J. W. Terry, proprietor of the picture show, was off on his regular run on the L. & N. railroad, and reached here last night to find that his theatre and also his place of residence, which was over the picture show floor, had burned. The loss of Mr. Terry and family was almost complete, both as to the picture show and their furniture and other things.

The E. E. Thompson paint and wall paper business immediately adjoins the burned building on the east, but the damage there was probably less than \$200, and was confined to some wall paper which was damaged when a few windows communicating with the upper portion of this business were shot through by the streams of water which had to go everywhere in order to put out the flames.

Even more remarkable was the experience of W. J. Mitchell, the clothing and shirt man, on the west side of the burned theatre, as Mr. Mitchell said yesterday morning, "I am really not damaged at all, the smoke that got in, not amounting to much, and there being no actual injury to my stock whatever."

Less fortunate, however, were two little lines of business in the front of the Alamo building. O. D. Adams, who had a space in the front for cigars, cigarettes and a shining parlor, had his stock of cigarettes badly damaged by water and smoke, while his chairs for the shining parlor were badly soaked and smoked, while other damage was done which will probably reach a total of \$200; he had no insurance, this having lapsed a few weeks ago, his intention being to renew it, but he had not done so.

The shoe shop of Barcelona & Vitoria, also in the front of the building, on the west side, was damaged probably to the extent of \$200, some expensive machinery being badly damaged and other damage to stock resulting. They estimate their loss at \$300, with no insurance. They had only opened business the morning before the fire.

The fire department did remarkable work in keeping the fire confined to the building as was done, and this is another illustration of the effectiveness of Waco's department.

Mr. Terry had \$2,500 insurance on the picture show and on his holdings in the building, but this will not cover his loss. The building was damaged probably \$5,000, covered by insurance. The dental office of Dr. F. G. Sorey, upstairs, was also badly damaged.

The estimate of damages on the theatre and contents belonging to Mr. Terry was as high as \$5,000, which would make a loss of \$2,500 above the insurance. Costumes of actors in the rooms above the theatre were not insured and were a loss.

Morrow Street M. E. Has a New Member Reception Tonight

Following the plan of holding a church reception each time that a total of fifty members has been received, the second program of this character within the year will be held at the Morrow Street Methodist church at 8 o'clock. This will be the first of 162 members received by the church in a period of some twelve months. Following a brief speakers' program an informal reception will be held. Prof. J. B. Port will speak on "What the Church Can Do for the New Member." "H. S. Lynch will talk on "What a New Member Can Do for the Church," and Mr. C. A. Appell has the subject of "What All Together Can Do for the Community." Rev. H. L. Munger is pastor of the church.

"WACO PLAN" WILL START NEW CHAPTER IN JEWISH HISTORY

With the indorsement by the district meeting of the B'nai B'rith at Little Rock, it is declared that the Waco colonization plan is the beginning of a new era in Jewish organization in America. Besides being a great movement among the Jews of the South, it will prove an experiment on a gigantic scale of the farm-colony plan and will be a wonderful crystallization of the back-to-the-farm movement.

Two of the most ardent supporters of the plan are Rabbi I. Warsaw and Louey Migel of this city, who were in attendance at the Little Rock convention. After a resolution indorsing the movement had been submitted to the resolution committee and voted down, Dr. Warsaw made his appeal from the floor for the sanction of the epochal movement, and after nearly three hours' heated discussion, it was carried by a motion of 56 to 42, then was made unanimous.

Testifying to the general interest in the plan, each delegation from the various states appointed one representative to service on a board of trustees. With \$20,000 already pledged from this state toward the movement, the trustees will start a campaign for \$500,000 or more to push the proposal through. It is pointed out that the securing of the colony for Waco, which seems probable, will mean a tremendous boon to Waco and be a winner as advertising the city throughout the nation.

The following trustees have been appointed: Oklahoma, I. R. Levy, president of a first national bank; Louisiana, A. Bernstein, president grand lodge, bank; Tennessee, Hon. N. Cohen, prominent attorney; Mississippi, A. Goldstein, capitalist and philanthropist; Arkansas, Dan Daniels, prominent merchant and candidate for mayor of Little Rock; Alabama, Leon Schwartz.

The Doctor's Advice by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature. Those wishing further advice, may address Dr. Lewis Baker, College Bldg., College-Elliott Bldg., Dayton, O., enclosing self-addressed stamped envelope for reply. Full names and addresses must be given, but only initials or fictitious names will be used in my answers. The prescriptions can be filled at any well-known drug store. Any druggist can order of wholesaler.

Miss "Constance" asks: "I am very thin and bloodless and want to increase my weight about 20 pounds. Please tell me what method to pursue."

Answer: A regular and persistent use of three grain hypo-nutrient tablets will usually produce an increase of weight by aiding nutrition and building up the flesh tissues. Scores of patients have reported increases of from 10 to 20 pounds from the use of these tablets. Full directions come with each sealed package.

Mrs. N. asks: "My scalp itches terribly, is feverish and a great amount of oily dandruff is present. What is good for this?"

Answer: First shampoo the hair and then apply plain yellow minoy about once a week as per directions. This relieves the itching, overcomes the dandruff and makes the hair beautiful, glossy and vigorous. Obtain in 4 oz. jars of druggists.

Mrs. "Annie R." writes: "My husband is surely afflicted with some kidney disease. He has become weak and suffers with headache and pains in his back and groins. Pains are like rheumatism. His feet swell and his feet seem to be chilled all the time. Some days he has tired and no appetite. Please prescribe."

Answer: The symptoms indicate derangement of kidneys and should not be neglected. I would advise him to take a compound well suited to such cases. Obtain in sealed tubes with directions for home use.

MARKET REPORT

COTTON

New York.

By the Associated Press.

New York, May 4.—After some early irregularity the cotton market became very active and firm today, with prices making new high ground for the movement. July contracts sold up to 12.62, or 8 points above the best price touched on the advance of last Tuesday, and 24 points above last night's close. Realizing checked the advance in the late trading, but the final tone was steady at a net gain of from 20 to 25 points.

The market opened steady at an advance of 6 to 12 points in response to the relatively firm showing of Liverpool and private cables reporting that English spinners were becoming uneasy owing to fears of an advance in ocean freight rates. Some selling also may have been inspired by reports that a prominent southern statistician anticipated a much larger than indicated by the private reports of last week. Liverpool was a buyer here, however, while there was a continued demand from trade in this market and after selling off from 12.50 to 12.48 for October and from 12.47 to 12.35 for July the market turned firmer.

May contracts advanced from 12.50 to 12.52, while October sold up to 12.71 and March worked above the 12-cent level with the general list showing net gains of 24 to 27 points in the late trading.

The close showed reactions of 1 to 5 points from the best.

New Orleans.

New Orleans, May 4.—A bulge in a quarter of a cent a pound resulted in the cotton market today from buying, stimulated by European peace rumors. Adding to the strength were bullish accounts from the spot market from the south, higher prices at many centers and large standing, considering the firmness of spot holders.

Opening trades were at the advance because of a higher Liverpool market than here, but at the end of the first half hour of business the active months were only 3 to 4 points up. By the middle of the morning the market was flooded with reports that Germany was feeling for peace through this country and general buying resulted. Shorts covered and brokers handled a large outside business. Prices were sent up for a net gain of 18 to 19 points by noon.

In the early afternoon the market was still further stimulated by the large spot trading, total sales here being 4120 bales at a rise of 12 points and prices were lifted to a level 24 to 25 points over yesterday's close.

Longs took profits in a moderate way late in the session and last prices were at a net rise of 21 to 23 points.

WHEAT

By the Associated Press.

Chicago, May 4.—Pessimistic forecasts of the reply of Berlin to Washington led to a sharp setback today in the value of wheat and so, too, did reports that civilians were leaving Metz. The market closed heavy 2 1/2¢ net lower, with May at \$1.12 1/2, July at \$1.14 1/2 and 1 1/4¢, corn less 1/2¢ to 1 1/4¢ and oats 1/2¢ to 1 1/4¢.

In provisions, the outcome was an advance of 2 1/2¢ to 3¢.

Settlement became increasingly bearish almost from the outset. At first, the pressure to sell appeared to result chiefly from better weather for seedling in the northwest and from attention to the fact that the world's available supply total had exceeded all previous records. It was not, indeed, until after adverse reports about the German note began to circulate that owners of wheat undertook to unload in earnest. Subsequently rumors of peace possibilities grew out of the advances regarding Metz and were the cause of additional selling. Assertions that reserves of wheat sold to have accumulated by the British government would not come into competition with commercial stock and not have much effect in stopping the descent of wheat prices here. On the other hand, the bulls were distinctly handicapped to some extent by the Kansas state crop report, which estimated the Kansas yield this season as 20,000,000 bushels more than was harvested in 1915.

Corn disposition tended to depress oats.

Higher prices on hogs gave strength to provisions.

W. J. Bryan Will Give Prize of \$50 to Texas Collegians

William Jennings Bryan, noted equally for his stand on peace and temperance, has sent his check for \$50 as a prize for the intercollegiate prohibition contest next year. It has been announced in college circles. It has not been stated whether or not the prize will be made permanent by Mr. Bryan.

Baylor university is one of the chief contenders for the collegiate prohibition honors and is greatly interested in the announcement of Mr. Bryan's generosity.

Binners' Committee to Work Out Details for Annual Meeting

Looking toward arrangements for the annual meeting of the Central Texas Ginners' association, a meeting of the executive committee will be held in this city tomorrow morning. H. L. Quinnis of this city is president of the association, and Charles H. Brooks, also of Waco, is secretary, and members of the executive committee. Details of the program, the social features and other matters will be considered. It is probable that other meetings of the committee will be necessary before all arrangements are made. The annual gathering of the ginners will be held in June.

At a recent meeting of the stockholders the officers and directors of the company were chosen as follows:

President, Sam Sanger, Waco; vice president, Cal Stewart, Marietta, Okla.; secretary and treasurer, J. L. Davidson, Waco.

Directors: Charles Hamilton, H. M. Minier, Dr. H. W. Gates, W. H. McCullough, George Rotan, Waco; W. E. Buchanan, H. E. Draughton, R. H. Haynes, Marietta, Okla.

War Will Take Sweet Out of The Doughnuts

"Roses are red
And violets blue;
Sugar is sweet—
And very high, too."

This is the new version of the old rhyme, brought about it is claimed by the European war and other conditions. At any rate, whatever brought it about, the price has gone skyrocking upward until it looks like the price of 10 cents a pound for saccharine satisfaction will be realized ere long.

Housewives who on yesterday inquired about the prices were told in some cases that eleven pounds for one dollar was the best price to be made at given stores; a few offered as a special inducement twelve pounds; a few, and a half would be sold for a dollar for a limited time, and one store with enlargement of the heart offered thirteen pounds for one dollar.

The extraordinary demand brought about by the great war was the chief reason given, and it was stated by some dealers that no relief is in sight before the fall crop comes in, if then.

Baptists Will Hold Rally at Chalk Bluff Beginning Tonight

Beginning at 8 o'clock this evening a Baptist rally will be held at Chalk Bluff continuing through tomorrow.

Pastor G. S. Jobe and citizens of the community extend a cordial invitation for Waco church members to attend the rally services. The program follows:

8:00—Devotional services, A. E. Eargle.

8:30—Sermon by W. A. Strickland.

9:00—Devotional services.

MARKET REPORT

COTTON

New York.

By the Associated Press.

New York, May 4.—After some early

irregularity the cotton market became

very active and firm today, with prices

making new high ground for the move-

ment. July contracts sold up to 12.62,

or 8 points above the best price touched

on the advance of last Tuesday, and 24

points above last night's close. Real-

izing checked the advance in the late trad-

ing, but the final tone was steady at a

net gain of from 20 to 25 points.

The market opened steady at an ad-

vance of 8 to 12 points in response to the

relatively firm showing of Liverpool and

private cables reporting that English

spinners were becoming uneasy owing to

fears of an advance in ocean freight

rates. Some selling also may have been

instigated by reports that a prominent

southern statistical authority placed the

increase in acreage at 10 per cent, much

larger than indicated by the private re-

ports of last week. Liverpool was a

buyer here, however, while there was a

continued demand from trade in this mar-

ket and after selling off from 12.56 to

12.49 for October and from 12.47 to 12.39

for July the market turned firmer.

May contracts advanced from 12.39 to

12.52, while October sold up to 12.71 and

March worked above the 15-cent level

with the general list showing net gains

of 21 to 27 points in the late trading.

The close showed reactions of 4 to 5

points from the best.

New Orleans.

New Orleans, May 4.—A bulge of a

quarter of a cent a pound resulted in the

cotton market today from buying, stimu-

lated by European peace rumors. Advic-

ing to the strength were bullish accounts

from the spot market from the private

higher prices at many centers and large

standing, considering the firmness of

spot holders.

Opening trades were at the advance be-

cause of a higher Liverpool market than

due, but at the end of the first half

hour of business the active months were

only 3 to 4 points up. By the middle of

the morning the market was flooded with

reports that Germany was feeling for

peace through this country and general

buying resulted. Shorts covered and

brokers handled a large outside business.

Prices were sent up for a net gain of

18 to 19 points by noon.

In the early afternoon the market was

still further stimulated by the large spot

trading, total sales here being 4120 bales

at a rise of 12 points and prices were

lifted to a level 24 to 26 points over

yesterday's close.

Longs took profits in a moderate way

late in the session and last prices were

at a net rise of 21 to 23 points.

W. O. W. Degree Team
Visits Mart Lodge

Where an initiation of candidates in the Mart lodge took place last night. There were nearly a score of the members of the degree team who went to Mart, and they had a most pleasant trip. It was feared on Wednesday that it would be impossible for the Wood- men to make the trip, owing to the muddy roads, but the sunshine rapidly dried off the surface, making the trip possible. Several autos made the trip.

The Fashions for Drapery Over the Bustle Have Given a Chance for a Glorified Bustle to Make Its Appearance.

New York, May 4.—"Beer and bustle" was one of the favorite phrases of the buyers in Paris during the month of February, for it was quite evident that this house on the Place Vendôme had decided to substitute distended drapery in the middle of the back, rather than at the sides.

Beer has been trying to make bustles the fashion for two years, and after there was much hullabaloo about it, this fashion, like hoopskirts, gradually came in by the side door while everyone was attending the front and hidden doors. Women and critics declared that bustles and hoops could never come back into fashion, for, as they said, we had advanced too far along the channels of grace and comfort to allow two features that permit of neither.

However, there are ways and ways of instituting a fashion, and the designers are shrewd doctors who know how to make their patients take a medicine under a different name from the one they refused. Little Spanish cerulets swinging around the hips, cleverly inserted into frocks by Lucile Lanvin did not sound like circular hoopskirts. Big puffs of graceful drapery standing out from the waistline in the back, as skillfully manipulated by Beer, probably have nothing in common in the layman's mind with the ugly bustle that came in with the Grecian bend. It was only when smart girls, following the pose French mannequins, began to tilt forward a bit instead of slouching backward, that we realized that both the bustle and the hoop had been reinstated into modern fashions. One must admit that they are gracefully reinstated.

Bustles NAUGHT BUT DRAPERY.

The thing we objected to in the name of the bustle was the hard, ungainly lump placed over the end of the spine, distorting the human figure out of all semblance to its authentic anatomy. Today, however, under the guidance of Beer and several other designers, the bustle merely means puff after puff of soft fabric that neither disguises nor distorts the form beneath.

In truth, it is rather an agreeable contrast to the over-accoutment of the lower part of the spine that was common with sheaths and circular skirts that were pulled tightly over the figure. Stout women had a fanciful idea, based on error, that the tighter they pulled a skirt around their hips the smaller appeared the circumference, whereas just the opposite was true. A slight and graceful drapery over large hips is apt to take away from their size and give more grace than nature saw fit to bestow.

Today, it is not only in the gowns of soft fabrics, but even in those of tar and faile that the bustle appears, but rigidity is not allowed. The drapery is close to the waistline, and in more attractive model, it disappears entirely over the upper part of the hips and spreads downward to a point at the sides.

The amateur will find this difficult bit of work, and she will accomplish it better by adopting an overskirt which she can cut as she wishes and drape independent of the full skirt beneath.

WITH THE BUSTLE IS THE FICHU.

It will interest every woman to know that there is a crudeness of the fichu. One sees it on the high priced French gowns and now on the simple silk and net frocks that are made for afternoon and evening dancing. It has appeared on black taffeta and satin as a substitute for any kind of collar, and it may be worn in the morning or afternoon.

One may be forgiven for mistaking form, as, for instance, on this French is for a shoulder cape in its enlarged gown of black taffeta given today in the sketch. This gown is of white silk net, edged with aquinas.

RHUBARB PRESERVES.

Here are some recipes for preparing

rhubarb for next winter's use. Rhubarb is one of the fruits that retains much of its fresh flavor when canned—partly, of course, for we never eat it uncooked.

Canned Rhubarb—Scald the jars thoroughly in which the rhubarb is canned, and fill them to overflowing with the boiling syrup. Then seal tight. Wash the rhubarb, then peel it and cut it in two-inch lengths. Pack it into jars as tight as possible. To each jar allow half a cupful of water and a cupful of sugar. With sugar and water in this proportion, make a syrup, boiling until clear. Then pour it into the jars, filling them to overflowing. Place the jars on a rack in a canner or boiler,

Nut Cake

Simply Delicious

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

In giving this recipe, Mrs. Hill believes it to be one of the best all-around cake recipes it has been her good fortune to make. The simplicity and uniformly good results will appeal to every housewife

K C Nut Cake

One-half cup butter; 1 1/2 cups granulated sugar; 3/4 cup milk; 2 cups flour; 2 level teaspoons K C Baking Powder; 1 cup of nut meats chopped fine; whites of 4 eggs, beaten dry.

Sift flour and baking powder together, three times. Cream the butter, add the sugar; then alternately, the milk and the flour mixture; lastly the whites of eggs and the nut meats. Bake in a sheet in a shallow pan thirty or forty minutes. When cold cover with the icing and decorate with whole nut meats. This is also an excellent white cake recipe when nuts are omitted.

Chocolate Icing

One cup granulated sugar; 1/4 ounce chocolate, white of 2 eggs, beaten dry; 1/2 teaspoonful vanilla extract; 1/4 cup water.

Stir the sugar, chocolate and water until the mixture boils; cover and let boil three minutes. Uncover and let boil till when tested in cold water a soft ball may be formed; beat into the white of egg, then beat until cold, add vanilla.

The nut caramel frosting given on page 7 of the K C Cook's Book may be used in place of the chocolate frosting, if desired. A copy of the Cook's Book handsomely illustrated in 9 colors, will be mailed free, if you will send the colored certificate packed in 2-cent cans of K C Baking Powder to the Jacques Miro, Co., Chicago.

Great Crowds Present at Southwestern Homecoming

The homecoming exercises at Southwestern university, Georgetown, on Wednesday night, in the nature of a May fete, were among the most elaborate and extravagant productions ever witnessed at this institution, according to Waco parties who attended.

Judge Tom L. McCullough, who is an alumnus of the institution, opened down Wednesday and remained through the program, which began about 6 o'clock in the afternoon and ran far into the night. It had been intended to hold the exercises Monday, but extreme weather conditions forbade.

The main program was carried out on the campus of the woman's building, and there were many and elaborate features. The "Pierrot Dance" of a score of beautiful young girls, with electric sparklers in their hands, the lights being turned off to make this exhibition the more effective, was one of the dazzling and beautiful numbers. There were many features, all of them excellent, and the crowd present was estimated at from four to five thousand.

Farmers Are Taking More Care in Saving Their Soil

"I am glad to see that farmers in many parts of Central Texas are beginning to give attention to the losses of land and the damage done to their holdings by washings of the rains, and if they will act in time they can prevent much loss in this direction," said W. W. Seley, speaking of his observations along the way while on a trip from Waco to Mexico recently.

Work of terracing between Waco and Mexico is going on in many places, particularly between Prairie Hill and Mexia, and there is also quite a bit of work going on between Waco and Prairie Hill. I noticed, in going to Dallas the other day, that much work of this character is needed up that way, and the farmers who want to prevent serious damage should begin on this work of protection at once.

Some farmers in this county are employing engineers, ditching, terracing and in other ways taking steps to save and preserve the magnificent farm lands here.

SPECIAL MEETING

COMMISSION TODAY

FOLLOWING REPORTS YESTERDAY DECISION MADE FOR SESSION ON FORD MATTER.

WHAT THE COMMISSION DID:

Postponed action on slaughter house ordinance until next week.

Received information that city was overdrawn during April for \$21,545.66.

Heard the monthly reports of the various city departments.

Voted for special meeting today for the consideration of the alleged misuse of the Central Labor Council seal by the street foreman.

The slaughter house ordinance went over another week yesterday morning when the city commission tackled the matter, and the question of the middle between Street Foreman Dan Ford and the Central Labor Council and Teamsters' union also went over, but the street foreman question only went over until this morning at 9:30, when it will be taken up by the city commission in a recessed session. The committee from the commission has certain evidence, documentary and otherwise, bearing on the matter, and the proposition will be thrashed out thoroughly this morning and probably settled.

After the call to order by Mayor John Dollins and the reading of the minutes by City Secretary John C. Davis, the monthly reports of departments were received. The report on finances of the city showed that this last month had caused a deficiency for April of about \$21,545.66, the city being overdrawn for that amount.

Monthly reports of Building Inspector Sam Herbert, City Electrician E. P. Copley and Sidewalk Inspector J. B. Strother were presented and filed.

A communication regarding a claim of J. P. Atkinson against the city for injuries alleged to have been sustained while he was running one of the city sprinklers was referred to the city attorney.

On motion of Commissioner Richards, action on the slaughter house ordinance was postponed another week.

Commissioner Richards asked that permission be granted to take bids on two horses at the West End fire station which are too small for the uses desired. This was granted.

The matter of a difference of opinion regarding a paving tax amount due the city was adjusted with W. W. Seley.

The alleged misuse of the seal and recommendation or endorsement of the Central Labor Council and Teamsters' union was brought up by Secretary J. O. Carey of the council, who said that the commission committee had full data and information regarding this matter. He said again that the Central Labor Council had never and would not endorse Dan Ford, and that the seal and endorsement of the Central Labor Council had been misused.

There was long discussion of this matter by the commission, and the committee which was last week appointed by the city commission, consisting of Commissioners Stampf, Harlow and Cockerott, retired to go over certain phases of the matter and look over certain documents. When this committee returned, Commissioner Stampf said it looked like the committee could not get together on the proposition, and suggested that the proposition go over until this morning. He thought the whole commission should act on the matter.

Mayor John Dollins stated that he wanted the committee to act, and said that he would only act if the matter came up to him in the form of a tie to be voted off. It was suggested that the matter be deferred one week, and a vote was taken on this. Commissioner Stampf voting "no."

It was then decided to meet Friday morning at 9:30 and take up this proposition, the presumption being that committee will either have a report ready this morning or will pass the matter back to the city commission, together with the evidence which is in hand.

Commissioner Richards, as the commission adjourned, asked the members to meet with him downstairs and inspect some fire apparatus which he has worked over, and which is expected to do good work, though the cost of getting it fixed was comparatively light.

Efficient Fire Apparatus Being Made from Old

The mechanical genius of Fire Commissioner Ben C. Richards of the Waco fire department has developed in a very practical manner, resulting in his fixing over some old fire apparatus and turning it into new-looking and service-producing motor-propelled fire apparatus.

He employed his powers first on the old street department auto, spending \$30 and putting it in first-class condition; he had the bed taken off and street department car attached to the hook and ladder truck firmly and securely, this making a nice piece of motor apparatus.

And when inspected yesterday showed upon splendidly, looking every inch a fire-fighting machine. It will be used in answering calls at the West End fire station, and the total cost was only \$165.

He will now take the old car of the chief of the department, put it under the East Waco hose wagon and give them a nice piece of motor apparatus at that station. The commission thinks that a big sum of money has been saved by this planning, and that the efficiency of the department has been increased through these efforts of Commissioner Richards.

High Girls' Glee Club Will Give a Recital Tonight

The Girls' Glee club of the high school will give a complimentary recital this evening at the Auditorium and the public is cordially invited. Miss Pattie Casseday has had charge of the training of the girls and an appealing program is promised. Miss Casseday is supervisor of music in city schools and has spent considerable time in preparing the members of the club for this evening's program. The recital will begin at 8:15.

County Educational Board Reorganized

The McLennan county school board was organized yesterday morning in the office of County Superintendent R. L. Abbott, who is secretary of the board.

Prof. John Strauss of Robinson was elected chairman of the board. In addition to Professor Strauss and Superintendent Abbott the following compose the school board: J. F. Bell, Mart, W. O. Allen, West; George Harris, China Springs; H. E. Hackney of McGregor is the member-at-large.

Mr. Burton and Professor Abbott were appointed a committee to examine territory near Riesel, with a view to establishing a new school, the territory being near the Siemens farm. Boundaries between the Patton and Preston districts were defined, and will be announced soon.

Hotels in Waco Seem to Be Running Full

The hotels of Waco are showing a tendency toward filling up in the good old way which is most gratifying.

On Wednesday night the Raleigh hotel was packed from top to bottom, some of the lobby waiting for some one to check off so they could get a room. The New State House was packed and jammed, while the Metropole, the Waco hotel and others had a splendid business and the rooms were well filled.

"This is the first city I have been in this year where the rooms were full at its leading hotels," said a traveling man, and he added that while it might work a little discomfort in a few cases it was a fine advertisement for the city of Waco, and would really result in bringing still more travelers this way, as the people like to go where the crowds are in evidence.

Ad Club Postpones Election Officers

Contrary to expectations, the election of officers of the Waco Ad club did not take place yesterday at the New State House at the weekly luncheon.
